FARMS FOR SALE in Camden, Burlington, and Atlantic Counties, 23 miles from Philadelphis, on the Camden and Atlantic Railroad, New Jersey. A large tract to be divided into small Farms to suit the actual settler, and all persons desiring a Farm. The soil is of the best quality and very productive. For farming purposes it is unexceptionable. It is being extensively improved by good fur pikes. It lies directly upon the Rail Road, and has the largest markst for produce, and adjacent to the largest population in the Union. The farms are made payable in easy instalments as follows:

Certificates entitling to locate 20 scres, \$240, payable \$6 per months Certificates for Track Farms of 10 acres, \$120, payable \$5 per month. Large Farms, 50 or 100 acres or more, at the same rate. This is to be located under valuations placed upon sections at cer-tain and stated times, to accommodate those who cannot locate or settle immediately. The terms are made easy, and payable in instal-

ments, to ensure its raph, improvement, and enhancement in value. Ten thousand acres have been laid out, upon which persons can locate at once, and receive a Peed for the Farms they buy. The soil is a fine rich LOAM with a CLAY BOTTOM, and retentive of manure. It is free of stones and easily worked. It abounds largely in the phosphates, and such is its fert. Ity that from the crops produc-ed both upon this land and the large area adjoining under cultivation, it will be found not to be excelled any where in the production of Crops most adapted to its market, such as C. rn, Potatoes, Oats, and all kinds of Vegetables and Fruits generally, particularly for truck-ing, both on account of the nature of the soil, and its being directly In the Philadelphia market. It also abounds with the best quality of Muck Manure. It is directly upon the borders of the great agri-cultural district which supplies the New York and Pilladelphia cultural district which supplies the New York and Pletutephia markets, embracing a population of several millions, and where, as may be ascertained from the census reports, farms are the most va-luable of any in the Union. All in this neighborhood are exceed-ingly productive and profitable. Some of this land is now under cultivation Land can be procured already clared, or partly tim-bered; also under cultivation. The price of this is from twelve to twenty dollars per acro-payable within four years, by monthly in-stalments of from five to ten dollars for twenty across larger Farms in proportion. Everything is on hand to supply settlers-steam and water power saw-mills are in operation. Lumber can be had at a cheap price. A good house can be built at from \$300 to \$500. A number of dwellings are already built; also a church, school-house, &c. It is intended to expend a hun-dred thousand dollars more in improvements, such as buildings,

turnpike roads, &c. The situation of the place is picturesque and beautiful. It is on the borders of Lake Hammonton, and is laid out in walks and groves. A beautiful Oak Park along the shores of the Lake is intended to be reserved for public use. Hammonton has been laid out in Town Lots, the cost of which is from \$25 to \$100. A Company has been organized to build houses and clear farms

a company has been organized. This will enable many upon credit, as soon as the property is sold. This will enable many bo improve who cannot personally attend to it. Arrangements can at once be made to have houses built and farms placed in order by persons at Hammonton. Owing to a great part being cleared, farms can be made immediately productive — when done, they will pay four-fold the cost. In settling here the emigrant has many adventages : He is within

a few hours ride of the great cities in the Middle States and New England. He is near his old friends and associations. He is in a SKTTLED Country, where every improvement and comfort of civili-zation is at hand. He is in a HEALTHY place, and is not subject to the certainty of losing the greater part of his family, and his own health by those malignant fevers, which make the graves of so many thousands of the young and the hardy, in far off regions, away from home and friends.

This presents a rare opportunity to the industrious-it enables all who wish to better their condition to become independent. It will soon be taken up, and, owing to its rapid improvements, it will mostly enhance in the provide all improvements to find greatly enhance in valve. This would all have been settled before had it not been held by large proprietors, who could not until re-cently dispose of it in a manner to suit the farmer and actual settler. The investment enables a man to provide for himself and family-in a manner which is safe and certain-against the contingencies

of business and misfortunes of life. The terms are such as to enable any man, at a small saving, at less the terms are such as to enable any man, at a single ar light of the the the cost of ordinary trifles, to make a purchase. There is a principle in investing in Real Estate which controls our success in life. If we look around amongst our friends and acquaintances who have become wealthy, we find it to be by their investing in Real Estate. The commencement may have been small, but it wa-kens the feeling of acquisition, and opens the field to future effort. It is the solid stepping stone to future prosperity, and what is often considered the result of fortune, is nothing more than any can accomplish It is to be preferred to anything else, because it is always certain, and likely to rise in value.
