Desultory.

THE WEALTHY HINDOOS AND MAHOMEDANS TO BE RE-QUIRED TO PAY WAR EXPENSES.

The London Times of November 7th has an article on the cost of the Indian war, from which we take the subjoined extracts :-

"There is certainly no other country which could have transported 50,000 men so quickly from various parts of the world to the scene of disturbance. A large army from home, 5000 men diverted from the Chinese expedition, several regiments from the Cape and Mauritius, and several more from other dependencies of the Crown, will before this have landed on Indian soil. But the despatch of this vast force with such celerity and completeness has, of course, necessitated a large outlay, and even though the rebels be crushed as an army it will be necessary to maintain strong bodies of Europeans to punish the robberies, murders, and other outrages to which the country must be exposed from desperate bands of outlaws. The cost of transport will be very large. So it is not at al too early to speculate on the manner in which this inforseen disbursement is to be met.

A few months since we were congratulating our- FIRE & LIFE INSURANCE COMPANY. selves on the return of peace, reduced armaments, and economical habits. The removal of the income tax, and of more than one obnoxious impost, was almost within sight. A long series of years spent in producing and consuming, earning and saving, seemed a certainty. But the millenium of winton Boult, Esq., Secretary. Manchester was not yet. The Persian war was scarcely over when the Canton troubles began, and these were soon to be forgotten amid the tempest which is still raging. However, we must, in justice to our patient and hard-working people, continue to keep in prospect a remission of taxation and a reduction of expenditure. Where the national honor is concerned, they have neither declined to fight or to pay. Where the safety of a colony has been threatened by a foreign enemy, or the maraudings of any savage race, they have readily sent regiments to protect the settlers, and afterwards taken the whole expense on themselves. loss. far. If the inhabitants of these two islands are to stg. Losses paid in 1856, £108,306 10s. 6d. stg. bear every charge which is incurred by the treachery or turbulence of any race throughout the empire, a time must come when people will begin to listen to those who declare that a country has no business with dependencies, that we should cut our colonies adrift, and have no other than commercial Please apply to relations with any spot beyond the four seas. We cannot conceive anything more malignant and unprovoked than this Bengal mutiny. The people were prosperous beyond any precedent beyond the range of history, the soldiery well treated and well cared for in old age, their religion was not only respected but even honored as a kind of dominant church, their prejudices of caste were inviolate;their caprices too much humored by the negligence or good nature of the authorities; yet, without a cause or even a pretext, they burst into insurrection over an extent of 1500 miles, slaughter their officers, violate women, and cut children into pieces. The peasantry have not indeed joined them, but it is more than probable that a rich and influential class has not been unwilling to profit by the misdeeds of the soldiery. These considerations lead but to one conclusion. India should be made to pay entirely, or in great part, the cost of the struggle. A war contribution might be fairly levied on the provinces which have been the scene of such Craft and their cargoes; and Farming Stock of all descripatrocities. Actively or passively they have been tions in Great Britain and Ireland and the Colonies, and guilty, and should bear the punishment. Every also in foreign countries. class and creed in India should be made to feel that the race which rules them cannot be defied and injured with impunity. While we punish the mutineers with death or banishment, we should give the country in general a lesson which which will County of Carleton. discourage it from any repetition of its late enor-

India is rich in hoarded wealth. For years that country has been drawing in and absorbing silver at the rate, it is said, of six millions sterling annually. Within no very long period forty millions are calculated to have passed from European circulation inte the coffers or hiding places of these Asiatics. There are in India fortunes which would be considered immense even in the city of London. Bangor. The Baboo bargains and speculates, and scrapes The Stage for Grand Falls and Quebecc leaves Woodand saves, until he has amassed millions of rupees, stock every Monday, Thursday, and Saturday, at & P. M. while his taxes are next to nothing. The taxes of and returning, leaves Grand Falls every Morday, Wedthe country are, indeed, heavy, but they all fall on the unfortunate ryot. They will be sent to subscribers by first mail, postage prepaid, by FOWLER & WELLS, 308 Broadway, New York.

IN NEW JERSEY.

TO ALL WANTING In a Mild Climate, And within an Mour's Ride of Philadelphia, Pa. FARMS FOR SALE in Camden, Burlington, and Atlantie Counties, 28 miles from Philadelphia, on the Camden and Atlantie ilroad, New Jersey. A large tract to be divided into small Farms o suit the actual settler, and all persons desiring a Farm. The soil is of the best quality and very productive. For farming purposes it is unexceptionable. It is being extensively improved by good turnpikes. It lies directly upon the Rail Road, and has the largest market for produce, and adjacent to the largest population in the Union. The farms are made payable in easy instalments as follows: Certificates entitling to locate 20 acres, \$240, payable \$6 per month. Certificates for Truck Farms of 10 acres, \$120, payable \$5 per month. Large Farms, 50 or 100 acres or more, at the same rate. This is to be located under valuations placed upon sections at certain and stated times, to accommodate those who cannot legate or settle immediately. The terms are made easy, and payable in instelments, to ensure its rapid improvement, and enhancement in value.

Ten thousand acres have been laid out, upon which persons can locate at once, and receive a Deed for the Farms they buy. The soil is a fine rich LOAM with a CLAY BOTTOM, and retentive of manure. It is free of stones and easily worked. It abounds largely in the phosphates, and such is its fertility that from the crops produced both upon this land and the large area adjoining under cultivation it will be found not to be excelled anywhere in the production of Crops most adapted to its market, such as Corn, Potatoes, Oats, and all kinds of Vegetables and Fruits generally, particularly for truck-ing, both on account of the nature of the soil, and its being directly in the Philadelphia market. It also abounds with the best quality of Muck Manure. It is directly upon the borders of the great agri sultural district which supplies the New York and Philadelphia markets, embracing a population of several millions, and where, as may be ascertained from the ceneas reports, farms are the most va huable of any in the Union. All in this neighborhood are exceed-ingly productive and profitable. Some of this land is now under cultivation. Land can be procured already cleared, or partly timbered : also under cultivation. Houses are already built and for sale, which will answer the temporary wants of the settler.
This location is perfectly healthy; fever and ague is unknown. The first division of 10,000 acres has been laid out, and immedistely adjoins the town of Hammonton. Some is under cultivationseveral thousand acres have been cleared for farms; it can at once be placed in a state of productiveness; it is coursed by fine streams of soft and pure water; it is being opened by a number of turnpike reads leading into the town. The price of this is from twelve to twenty dollars per acre-payable within four years, by monthly in-stalments of from five to ten dollars for twenty acres; larger Farms in proportion. Everything is on hand to supply settlers - steam and cheap price. A good house can be built at from \$300 to \$500. A brick yard is about being established, and a lateral Rail Road, threeturnpike roads, &c.

fourths of a mile in length, is under contract, to supply Hammonton with stone from the adjacent quarries; stores, workshops, &c., me about being opened. A number of dwellings are already built; also a church, school-house, &c. It is intended to expend a hun-dred thousand dollars more in improvements, such as buildings, The situation of the place is picturesque and beautiful. It is or the borders of Lake Hammonton, and is laid out in walks and groves. A beautiful Oak Park along the shores of the Lake is intended to be reserved for public use. Hammonton has been laid out in Town Lots, the cost of which is from \$25 to \$100.

A Company has been organized to build houses and clear farms upon credit, as soon as the property is sold. This will enable many to improve who cannot personally attend to it. Arrangements ca et once be made to have houses built and farms placed in order by persons at Hammonton. Owing to a great part being cleared, farms can be made immediately productive - when done, they will pay n settling here the emigrant has many advantages: He is within a few hours ride of the great cities in the Middle States and New England. He is near his old friends and associations. He is in a service country, where every improvement and comfort of civiliant is at hand. He is in a ration is at hand. He is in a HEALTHY place, and is not subject to the certainty of losing the greater part of his family, and his own health by those malignant fevers, which make the graves of so many thousands of the young and the hardy, in far off regions, away from home and friends. This presents a rare opportunity to the industrious -It enables al who wish to better their condition to become independent. It will and it not been held by large preprietors, who could not until rely dispose of it in a manner to suit the farmer and actual settler. The investment enables a man to provide for himself and familyn a manner which is safe and certain -against the contingencies The terms are such as to enable any mun, at a small saving, at less than the cost of ordinary trifles, to make a purchase. There is a principle in investing in Real Estate which controls our success in . If we look around amongst our friends and acquaintances o have become realthy, we find it to be by their investing in Real Latate. The commencement may have been small, but it wa-kens the feeling of acquisition, and opens the field to future effort. It is the solid stapping stone to future prosperity, and what is often considered the result of fortune, is nothing more than any can accomplish It is to be preferred to anything else, because it is always certain, and likely to rise in value. ROUTE: - The reilroad Trains go and return from Philadelphia twice a day. Leave Vine street wharf at 71/2 o'clock, A. M. Hammouton, and return in the afternoon, (when there, enquire for Judge WALKER, the Agent,) or leave at same place at 31. clock, P. M., and return next morn There are many already locating, and persons should be prompt, in order to obtain locations to suit them. Committees can go down,

examine the land for their friends, and make reports or selections.

A large number of Farmers from New England, Pennsylvania, New Jersey, and Delaware are about going there, to commence improvements.
Warrantee Deeds will be given to each purchaser. Title is good and INDISPUTABLE. The first instalment upon a purchase is five dollars; which can be sent by letter, and purchase secured.
For full, descriptive Pamphlets, or for Lots or Farms, address JOHN STILES, Agent. 31 Exchange Street, Boston, where Plans can be seen, and general information obtained. Descriptive PAMPHLETS, PLANS &c., of these LANDS may be seen at the Business Office of this Paper.

DR. HARRISON'S A POSITIVE CURE FOR

Costiveness and Dyspepsia! THE Proprietor, by the advice of the leading phy L sicians of Boston, is introducing his Peristaltic Lozenges throughout the country. They are tonic as well as laxative, and differ from all physical pills. They are superceding every other remedy for costiveness and its results, viz .:

PILES, MEADACHE, DIZZINESS, SICK HEADACKE, PALFITATION, LIVER COMPLAINT.

They are safe and effective for Females who suffer day. Customers calling will not only find a splendid shop, from costiveness, giving tone to the whole system. For Irregularities and Suppressions, especially of THE virus of disease often makes its way to the lateryoung persons having little exercise, they are most effectual, giving color to the blood, and restoring The Peristaltic Lozenges cause no pain, are agree- the seat of inflammation, promptly and invariably subdess able, and so compact that they may be carried in the it, whether located in the kidneys, the liver, the lungs, vest pocket, and are therefore just the thing for trav- or any other important organ. It penetrates the surface

> Devote a few moments to the consideration of the TONIC EXTRACT,

A Medicine which possesses Extraordinary Virtues, and has made many Cures. FILE Proprietor has been for years experimenting and endeavoring to discover a medicine, which could be relied upon in the above complaints, and is happy to in form the afflicted that he has at last succeeded beyond his expectations, having never known an instance where the

timely administration of the Tonic Extract failed to do cines, or vending the same, knowing them to be sparious It is necessary, however, to use this medicine according to the printed directions which accompany each bettle -This may, in some cases, involve self-denial on the part of the patient, but is the only course which brings about

This Medicine is not introduced for the sole purpose of making money, it is a useful article and ought to be generally known. The Proprietor purposes to supply the aiflicted poor without charge, upon the recommendation of a respectable party, on condition that the patients will from time to time, make a statement of the effects of the The Tonic Extract will make the fiesh firm, give a good appetite, and bring about a regular state of the systam;

when this happens, of course the spirits will become enlivened, and there will be a prospect of health and long The Proprietor takes the liberty of using the name of the Rev J. Blakeney, Baptist Missionary, for a reference in support of the good qualities of this Medicine. The Tonic Extract is put up in four ounce phials-price ls. 3d. per phial.

THE GREAT FAMILY REMEDY! G. W. STONE'S VEGETABLE

LIQUID CATHARTIC.

and reliable cathartic, in a liquid form, agreeable to the taste, and one which purges without violence, is a desideratum in medicine; this fact will be admitted by all. Such & discovery has been often attempted, but without success, until the introduction of the above-named remedy. No patent medicine ever met with such ready approva! by physicians as this. Many regular practitioners are using it daily, all of whom have spoken of it in the highest terms of praise. Persons, for the want of a better, have been obliged to resort to the use of those drastic, nauseous, and oftentimes injurious purgatives, such as castor oil, salts, sema, rhubarb, jallop, aloes, gamboge &c., all of which cause more or less debility, and fall to accomplish the object for which they are taken; on the contrary, they often increase the difficulty, and render the patient less curable. None of these enter into the composition of this invaluable remedy. It is composed of barks, roots and seeds, the medical properties of which are exactly adapted to the cure of those complaints for which it is recommended. By a combination of those properties, the public were put in possession of the most valuable preparation ever produced. This medicine is not intended simply as a cathartic; its value as such is insignificant when compared with its power of purifying the blood from all humors, regulating the action of the bowels, curing Dyspepsia, restoring the appetite, producing a healthy action of the Liver, freeing the stomach from bile, and invigorating and strengthening the whole system. It is a eertain cure for the Piles, and those suffering from that complaint should give it a trial. It is also warranted to cure canker in its worst forms. For all diseases of the Bowels it cannot be recommended too highly. In Summer Complaints, such as Dysentery, Diarrhoa, Cholera Morbus, &c., it will be found invaluable.

Reader, as sure as the sun rises in the east, just so sure you will be benefitted by the use of this medicine for any of the above complaints; and as surely will it relieve those suffering from Rheumatism, Neuralgia, Tic Doloureux, Sout. Headache, and Pain in the Side and Stomach, caused by Flatulency. Loss of Appetite, Indigestion, general pounding of medicines myself, I place those before Debility, &c., is often produced by wind in the Stomach which this remedy will expel at once. It is also an excelnothing is now required but a trial, to gain for lent remedy for Sea-Sickness. Those having occasion to travel by water will find it invaluable.
