

## Desultory.

**LINES BY BUSTER.**  
When merchants faintly trust to pay  
And feel too late that banks betray,  
What art can help them from the scrape,  
Or suggest the means whereby to pay?

The only way to stop each creditor,  
And pay the bank in whom they trust,  
To bring repentance to the broker,  
And wing his boom, is, "it's too late!"

**DIVORCE IN ENGLAND.**—For two centuries and a half the marriage contract in England has been by law indissoluble; and between 1701 and 1850 about 250 divorce bills have been passed by special acts of Parliament. The mode of remedy was too expensive for thousands. The anomaly was apparent; the legislature did wrong either in interfering with the law in special cases, or in not interfering in other cases of equal necessity. A commission on the subject was appointed in 1850, which resulted in 1855 in an elaborate report, recommending *inter alia* the abolition of the anomalous system of legislative divorce and the constitution of a new tribunal empowered in certain cases to dissolve marriage contract and to award parties to contract other marriages. Lord Palmerston determined to carry out the principal recommendation of the commission, and in the short session of 1857 succeeding, against a determined opposition from all quarters, in passing "an act to amend the law relating to divorce and matrimonial causes." This tribunal has just commenced its sessions.

**PERSECUTION OF A WOOD THIEF.**—In the depth of a hard winter's night in northern New York, a gentleman heard a big noise at a wood pile, and calling found a man just leaving, dragging a sled on which were a few boards and a bundle of firewood. The thief was overtaken and begged for mercy, avowing that his family was freezing. "Come back you rascal, with that sled," said the owner of the wood; and the culprit dragged it back to the pile and began to unload. "Stop that, you rascal, and put on a sled," said the owner of the wood, and after placing the sled to its full capacity, added, "Now pull, pull, you scoundrel!" The culprit could scarcely start the load, but by the application of a switch and an oath or two from the rough, but good natured owner, the load was got under way, and for half a mile, with some wading, was the culprit hauled to the door of his fireless cabin, ready to fall from the labor of hauling the load. "Thee's a scoundrel," said the owner, "I'll teach you to steal my wood; next time, ask me for wood. That was justice tempered with more."

**NATIVE PRINCES.**—There still exist in India at least 220 sovereign princes, rajahs, or chieftains, of different ranks and power, from the Nizam, who is the monarch of a great kingdom, with a distinct army of 60,000 men, down to the petty Maharajah and Rajpoot chiefs. These princes rule over upwards of 500,000,000 of subjects; they have at least 40,000,000 of subjects, their independent revenues are extremely great, and they have under their direct orders military bodies, wholly unconnected with the company, which amount to 250,000 armed men. It is true, says Mr. Thornton, from whom paper we borrow these details, that considerable portions of these troops of native States are better fitted for police purposes than for war; that no regular system of payment is followed among them; and that they are for the most part badly organized and inefficient. But, on the other hand, the list is by no means complete. It comprises the Rajahs, who may be said to have a political status, but most of whom have in turn petty dependent feudatories, all having armed followers, which swell the native forces of India to a prodigious amount.—*Edinburgh Review.*

**SINGULAR MARRIAGE.**—In New Baltimore one day last week, twin sisters married twin brothers, the parties being each 23 years of age, and the wedding day of the brides was the anniversary of their birth.

By the timely supply of N. Gardner's Indian Balsam of Licorice, the best and most effectually remedial agent ever offered in all Pulmonary complaints. For sale everywhere.

**REMARKABLE WORK OF HUMAN LABOR.**—Nineveh was 14 miles long, 8 wide, and 40 miles round, with a wall 100 feet high and thick enough for three chariots abreast. Babylon was 55 miles within the wall, which were 75 feet thick, and 100 high, with 100 towers. The temple of Diana at Ephesus, was 420 feet to the support of the roof. It was a hundred years in building. The largest of the pyramids is 481 feet high and 675 on the side. Its base covers 11 acres. The stones are about 60 feet in length, and the layers are 208. It employed 230,000 men in building. The labyrinth in Egypt contains 300 chambers and 12 halls. Thebes, in Egypt, presents ruins 27 miles around, and 100 gates. Carthage was 25 miles round, and 100 miles long, and contained 350,000 citizens and 400 ships. The temple of Delphos was so rich in donations that it was plundered of \$500,000, and Nero carried away from it 200 statues. The walls of Rome were 13 miles round.

The Lecompton Constitution for Kansas has been defeated in the House of Representatives. This is considered to be a great victory for the Free Soilers and against the President. A short time since the Lecompton Constitution passed the Senate.—*Morning News.*

**MEXICO.**—President Zuloaga, of Mexico, has written a very humble and servile letter to the Pope. \* \* \* This document is another addition to the vast amount of evidence we have had before. Liberty in any nation where the Catholic religion reigns paramount. The trouble is not so much that it influences the rulers and higher classes, as that it enables them to fight one another by enlisting the prejudices of the ignorant populace, and using their religious faith as a means of eternal salvation, as more fuel and steam wherewith to work their political machinery.

**MURDER IN PORTSMOUTH, N. H.**—A horrible tragedy occurred in Portsmouth, N. H., on the night of Sunday the 25th ult. A man named William H. Spinnery, a very respectable society, whilst in a fit of intoxication, got embroiled in a quarrel with D. H. Spinnery, a cousin to his wife, and made an attempt to shoot him. A few of the shot entered Spinnery's shoulder and the rest of the contents of the gun were lodged in the breast of his wife, Mrs. Sarah Ann Spinnery, causing her death instantly. The affair caused much excitement in Portsmouth, as a murder is not known to have been committed there for two hundred years.

**BRITISH TIMBER TRADE.**—Liverpool, 25th March, 1858.—The present month, usually a busy one for our trade has this year been characterized by great dullness. The improvement noticed in our last circular was of very short duration, and notwithstanding the favorable change in the weather, consumption has become almost nominal, and prices current last month are now scarcely obtainable.—stocks with the exception of Quebec Pine and Pitch Pine at moderate prices are reasonable and money cheap, but the effect of the late pressure in the commercial and manufacturing classes is still severely felt, and all accounts from the interior agree in describing the building trade as exceedingly dull, with no immediate prospect of a revival.

**Hardwood.**—The stock is quite sufficient, the last sale was a parcel of St. John, by auction, at 15d to 16d per foot for an average of 15 to 14 inches, and 20d to 24d for 17 to 18 inches.

**Spruce and Pine Deals.**—The supply is rather less than last year, and in the next three months will probably be unusually small, so that present stocks in the hands of importers may be considerably reduced before fresh arrivals. The sales are chiefly by auction at about 47 1/2d to 47 1/4d for St. John Spruce, which rates do not extend to the import cost. At the present rate of consumption the stocks now on hand are sufficient for the next five months.—*Farnworth and Jardine's Circular.*
