To-day, indulent reader, permit us to devote a little space of the Sentinel and ourselves. Our paper preents an altered appearance. The alteration its form has been made after much thought hesitation, with the sole intention and desire of pleasing our patrons. The very extensive advertising patronage extended to us through the past year, has curtailed to a considerable extent the space previously appropriated to Literature and Miscellany. There were but two ways to obviate this, and continue to present to our readers a due amount of reading matter; one was, to obtain a prosperous! new press-which would have been very agreeable, but was not practicable; the other was to alter our We perceive by an advertisement in the St. An
