ITS EFFICACY IN CURING DYSPEPSIA, Affections of the Liver, Dropsy, Neuralgia, Bronchitis and Consumptive Tendencies, Disordered State of the Blood, Boils, Scurvy, and the Prostrative Effects of Lead or Mercury, General Debility, and all Diseases requiring a tonic, or alterative Medicine, is

CARD.

The undersigned having experienced the beneficial effects of the Peruvian Syrup," do not hesitate to recommend it to the attention of the public.

From our own experience, as well as from the testimony of others whose intelligence and integrity are altogether unquestionable, we have no doubt of its efficacy in cases of Incipient Diseases of the Lungs, and Bronchial Passages, Dyspepsia, Liver Complaint, Dropsy, Neuralgia &c. Indeed its effects would be incredible, but from the high character of those who have witnessed them, and have volunteered their testimony as we do ours, to its restorative power,

It is well known that the medicinal effect of Protoxide of Iron is lost by even a brief exposure to air, and that to maintain a solution of Protoxide of Iron, without further oxidation, has been deemed impossible.

In the Peruvian Syrup this desirable point is attained by COMBINA-TION IN A WAY BEFORE UNKNOWN; and this solution may replace all the proto-carbonates, nitrates and tartrates of the Materia Medica.
