THE SMACK IN SCHOOL.

The following incident in a district school is told by Mr. William Pitt Palmer, of New York, President of the Manhattan Insurance Company, in a poetical address before "The Literary Society," in Stockbridge, Massachusetts, his native home:

A district school, not far away, 'Mid Berkshire hills, one winter's day Was humming with its wonted noise Of three-score mingled girls and boys; Some few upon their task intent, But more on furtive mischief bent; The while the master's downward look Was fastened on a copy-book; When suddenly, behind his back, Rose sharp and clear a rousing SMACK ? As 'twere a battery of bliss Let off in one tremendous kiss! "What's that?" the startled master cries; "That, thir," a little imp replies, "Wath William Willith, if you pleath-I thaw him kith Thuthanhah Peath!" With frown to make a statue thrill, The master thundered "Hither, Will !" Like wretch o'ertaken in his track, With stolen chattels on his back, Will hung his head in fear and shame, And to the awful presence came-A great, green, bashful simpleton, The butt of all good-natured fun-With smile suppressed, and birch upraised, The threatener faltered-"I'm smazed, That you, my biggest pupil, should Be guilty of an act so rude ! Before the whole set school to boot-What evil genius put you to't?" "Twas she, herself, sir," sobbed the lad, "I did'nt mean to be so bad-But when Susannah shook her curls, And whispered I was 'fraid of girls, And darsn't kiss a baby doll, I couldn't stand it, sir, at all, But up and kissed her on the spot! I know-boo hoo-I ought to not, But, somehow, from her looks-boo hoo-I thought she kind o' wished me to!"

THE reputation of these very celebrated vegetable remedies is now unequalled by any others in this coun- try, in which the lamentable neglect of those diseases by try or in Europe. They are fully established as the most medical men generally, and their futile attempts to cure universal family medicine now in use, and they will main tain their pre-eminent renown by the intrinsic and com prehensive virtues which acquired it. Subjoined are the statements from some eminent physicians, of their effects in their practice.

As a FAMILY PHYSIC. From Dr. E. W. Cartwright, of New Orleans. "Your PILLS are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment

FOR JAUNDICE AND ALL LIVER COMPLAINTS. From Dr. Theodore Bell, of New York City. "Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincercly rejoice that we have at length a purgative which is worthy the confidence of the profession and the people."

DYSPEPSIA - INDIGESTION. From Dr. Henry J. Know, of St. Louis. "The Pilts you were kind enough to send me have been all used in my practice, and have satisfied me that they are truly an extraordinary medicine. So peculiarly are they adapted to the diseases of the human system, that they seem to work upon them alone. I have cured some cases of dyspepsia and indigestion with them, which had resisted the other remedies we commonly use. Indeed I have experi-mentally found them to be effectual in almost all the com-

plaints for which you recommend them." DYSENTERY - DIARRHEA - RELAX. From Dr. J. G. Green, of Chicago. "Your PILLS have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for bilious dysentery and diarrhoa. Their sugar-coating makes them very acceptable and convenient for the use of women and children."

INTERNAL OBSTRUCTION-WORMS-SUPPRESSION. From Mrs. E. Stuart, who practises as a Physician and Midwife in Boston. "I find one or two large doses of your PILLS, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very offertual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients."

CONSTIPATION - COSTIVENESS. From Dr. J. P. Vaughn, Montreal, Canada. "Too much cannot be said of your PILLS for the cure of cortiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe costiveness to originate in the liver, but your PILLS affect that organ and cure the disease." IMPURITIES OF THE BLOOD - SCROFULA - ERY-

SIPELAS - SALT RHEUM - TETTER - TUMORS - RHEUMATISM - GOUT - NEURALGIA. From Dr. Ezekiel Hall, Philadelphia "You were right, Doctor, in saying that your Pris purify the blood. They do that. I have used them of late years in my practice, and agree with your statements of their efficacy. They stimulate the excretories, and carry off the impurities that stagnate in the blood, engendering disease. They stimulate the organs of digestion, and infuse vitality and

vigor into the system. "Such remedies as you prepare are a national benefit, and you deserve great credit for them." FOR HEADACHE - SICK HEADACHE - FOUL STOM-ACH-PILES-DROPSY-PLETHORA-PARALYSIS -FITS - &c.

From Dr. Edward Boyd, Baltimore. "DEAR DR. AYER: I cannot answer you what complaints I have cured with your Pills better than to say all that we ever treat with a purgative medicine. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your PILLS afford us the best we have, I of course value them highly." Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that fre-

quently follow its incautious use. These contain no mercury or mineral substance whatever. Ayer's Cherry Pectoral Has long been manufactured by a practical chemist, and every ounce of it under his own eye, with invariable accu-

racy and care. It is sealed and projected by law from counterfeits, and consequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints; for Coughs, Colds, Hoarseness, Asthma, Croup, WHOOPING COUGH, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of consumptive patients in advanced stages of the disease. As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant to the palaces of European kings. Throughout this entire country, in every state and city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians If there is any dependence on what men of every station certify it has done for them; if we can trust our own senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business is to know; in short, if there is any reliance upon any thing, then is it irrefutably proven that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. Nothing but its intrinsic virtues, and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies have been thrust upon the community, have failed, and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and remarkable to be forgotten.

From long practical observation of the treatment pursued in the various institutions of London and Paris for those diseases referred to in the above work, the author has had somewhat unusual facilities for acquiring that accuracy of diagnosis, and uniform success, which have characterised his practice for so many years in this counby mercury, copaiba, sarsaparilla, &c , have produced most distressing results.
