A REAL TEMPERANCE SOCIETY. - The Dashaway Temperance Society is the name of a thriving may 28. "lengue" in San Francisco, California. The original nineteen were habitues of an engine house, and members of the company that propelled the machine. They had been four or five days on a fright ful "tear," without going out of the house, when snakes and other "insects" that usually follow such orgies began to appear. At length a dawn of reason reached one of the party, when he rose on his tottering legs, and nervously excluimed "Boys, let's dash this d--d stuff away, and drink no more."

"Agreed," said three or four. "I'm hanged if I don't," says another; and so on by degrees the whole nineteen came in and signed a moral " Declaration of Independence." Subsequently the whole company signed the con- INGS, RUSSELCORDS, &c.; with every description of

From this little point started the "Dashaway Association," numbering now about eighteen hundred members, including in its number the first Governor of California (who had been for years a confirmed inebriate); also lawyers, actors and civilians of all grades, from the highest to the lowest-from those who tippled in fashionable society, in fashionable saloons, among the politicians of the day (ulways liberal about election time), to those who took their quiet "snifter" of double-breasted Minnie-rifle whiskey on the docks and wharves.

NOVELTIES OF ROMANISM.—One of the common claims of the Romish Church is that of antiquity, for her peculiar doctrines and practices. This claim is admitted, too, by a multitude of Protestants, who have little instruction in that controversy with Rome, which since the days of the reformation has been chiefly carried on by the people of Britain. The following statement of the date of the origin apr 30. of most of her peculiarities, taken from the United Service Gazette, will show how little claim she has to what Melancthon called a simple and sincere

JOYFUL REUNION -The Richmond correspondent of the Petersburg Express says:

There was a joyful meeting, under a humble roof in Sydney, on Wednesday. A young man, who has been absent from home nineteen years, and who was long since mourned as dead, unexpectedly knocked at his father's door, while the family were partaking of their morning meal. A beautiful sister, just attained to blushing womanhood, answered the knock, but of course did not recognize the brother, he being a mere lad when he left the parental roof. He then asked for Mr. K., and the old gentleman quickly appeared, but did not recognize the the long lost son. The mother now made her appearance, and scanning the features of the stranger

Shrieking "My son! my son!" her warm heart became too full for utterance, and she swooned away into the young man's arms. The scene was indescribably and painfully affecting. The mother still reposed unconsciously in the arms of her long, long mourned son; the father's eyes were suffused with tears; and the sister, with two or three young Leather, together with an assortment of all the various members of the family, sobbed aloud. Ascertaining styles to be found in the London, New York and Boston the cause of this joyful weeping, a sympathetic Markets. cord in the visitor's heart was touched, and for a brief period all were completely overcome. "He that was lost is found !"

A member of the French Academy of Sciences, who has devoted much study to the causes of the destruction of Pompeii and Herculanæum and the seven other towns that shared their fate, has come to the conclusion that, while they were destroyed by an eruption of Vesuvius, as is the common belief. they were not buried by a shower of ashes and stones, as they would only have been deposited on the surface of the houses, and have filled nothing TWO HUNDRED PLOUGHS! but open cavities. In all the excavations, deep cellars, perfectly closed on all sides, are filled with tufa, a soft stone formed from depositions of water, showing that water must have been the chief cause of the burral of these cities, as nothing else could have penetrated everywhere. He concludes, that while the shower of ashes began the work of destruction these cities of antiquity were buried under a huge ocean of mud during the earthquake caused by the violent eruption.

Drugs, Medicines, &c.

Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the con-stitution, descending "from parents to children unto the third and fourth generation;" indeed. it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon

their children." Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DIS-EASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIA-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills, FOR ALL THE PURPOSES OF A FAMILY PHYSIO, are so composed that disease within the range of their action can rarely withstand or evade them Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so

simple and inviting. Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction

Ayer's Cherry Pectoral, FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive

Patients in advanced stages of the disease. So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the oulmonary organs that are incident to our climate While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and pro-

duced cures too numerous and too remarkable to PREPARED BY DR. J. C. AVER & CO.
