## The Carleton Sentinel.

SATURDAY, JULY 21, 1860.

We are compelled, by the force of circumstances beyond our control, to issue only half a sheet this week, our foreman, by a sudden and severe attack of illness, being confined to the house. We hope our readers will excuse us, and we will make it up to them in future.

THE "STANDARD" AND DR. HILL.—Not yet this week can we devote that space to this subject which we had intended: suffice it to say that the columns of the Standard of a fortnight since contain an editorial article over the signature of an asterisk, which contains a most violent denunciation of the Government for its acts in general, but in particular for what the writer regards as its crowning act of infamy, the alleged appointment of Mr. Hill to the presidency of the University. The Standard has been noted hitherto for its moderate views, and has never before spoken harshly of the Government, therefore our wonder at an article appearing in it which for violent denunciation and abusive language would grace the columns of the Head Quarters. Such writers as the "Star" only injure what they seek to support. No man doubts the capacity of the chief professors at the University; no man doubts the amiability and kindness of heart which the reverend principal possesses; but the fact has been determined on by solemn Legislation, not in advance, but as the result of plainly expressed public opinion, that a change in the institution and its government was necessary, and the man who would endeavor to combat public opinion, to excite the character of the professor of King's College or the institution itself must do it by some other means than by abusing the Government, disparaging other educational establishments, or of so deservedly popular a character as the Sackville Academy, and the Acadia College.

Why it is that the appointment has not been yet gazetted we are at a loss to determine, but sincerely hope that the rumor given currency to by some of our contemporaries, to the effect that the Governor has interfered to prevent the appointment is without foundation. These rumors, however, would seem to make it advisable that the public mind should be relieved of all doubt on the subject at once.

The Editor of the Reporter must have been at a loss to understand our meaning, or he would not have so misconstrued it. We did not intimate that the Government stood pledged to Mr. Glass for any assistance in his labor in the old country. We merely remarked that Mr. Glass was achieving at home what our Government, Legislature and press had been long seeking, doing a work for which the country out to other parties much without any return, and ing it heretofore at his own expense, and suggested that the Government for the province might at least bear a share of the expenses, in view of the benefit accruing from Mr. Glass mission. No matter for what Mr. Glass went to Britain, if he induces a large body of good emigrants to come to our province and settle, he deserves more than our bare thanks.

THE CAMP MEETING.—The Wesleyan Camp Meeting was opened on Wednesday the 14th and closed on Thursday last. The weather during the time it continued was of a very favorable character, and the numbers that attended at the various services were very large. On Sunday forenoon there was the largest gathering we have ever seen in any one place in the province, between 25,000 and 3,000 persons being seated. The Rev. John P. Stoddard, of New York, was the principal speaker. The arrangements were of a much better character than those of former years, and the number of tents erected much greater than then, about twenty-eight in all.

TEMPERANCE MEETING AT UPPER WOODSTOCK.—The Officers of Melancthon Division, No. 34, S. of T. were installed on Saturday evening last by D. G. W. P. Isaac Stoddard. The doors were open to the public, and a very large number availed themselves of the opportunity and attended. The meeting was addressed by the W. P. J. R. Hartly, Rev. Mr. Howe, Mr. John Fisher, and the Editor of this paper. The members of Melancthon Division have recently renovated the Hall, painted and papered it, and the improvement is marked and highly pleasing.

At a regular meeting of Grand Falls Division, No. 121, S. of T., the following brothers were duly installed officers for the ensuing quarter: N. L. Price, W. P. J. C. Sullivan, W. A. C. N. R. Hart, R. S. W. C. Hammond, Jr., A. R. S. R. Caldwell, F. S. W. Hay, T. G. W. Day, C. H. Emerson, A. C. J. Morrison, I. S. J. Lorey, O. S. Brother W. C. Burpee takes the Chair of the P. W. P.

ACCIDENT.—On Sunday last, a little son of Mr. Richard Clarke, of this village, met with a serious accident. He was standing in the yard back of his father's premises, when a wooden fence, about 15 feet long, fell, and in its descent struck the lad on the head. He was taken up insensible, but by the proper application of restoratives, was soon returned to consciousness. If the force of the falling fence had not been broken by a clothes-line that fortunately was suspended across the yard, the lad would have undoubtedly been killed.

The above is taken from the Chatham Carleton.

The boy is the son of Mr. Richard Clarke, formerly of Woodstock.

The County Council has been in session during the week, terminating their labors on Thursday. We expect to publish the record of their proceedings next week.

QUICK WORK.—Some days ago the appearance of four men from new wheat in the Augusta (N.S.) market was noticed. Its movements from the field to the channel of commerce are worthy of a record, showing that we of the South can be as fast as the Yankees, when we have a mind to. On Thursday morning that wheat was standing in the field, on the farm of Mr. Daniel, opposite this city. It was cut, threshed and winnowed, and on that day, brought to Savannah, and taken by the night train 130 miles to Stovall's Elevator Mills, at Augusta, where they arrived early on Friday morning. By two o'clock that day it was ground, the flour bottled, re-sacked and on the cars for Savannah, arriving here by the 10 o'clock P. M. train, having undergone all these changes, and traveled 250 miles less than 48 hours, but this is not all. Early next morning (Saturday) 20 sacks of it were on board the steamer, and will be in New York in time to be served up by the hotels at breakfast on Tuesday morning! We have thus five days for the whole operation including some 1,100 miles of travel.—Savannah Republican.

The value of merchandise exported from San Francisco, between the 4th and 18th of June aggregated \$518,205.

The total export of treasure from San Francisco, from January 1st 1860 to June 1st, was \$19,616,762.

## COMMUNICATED.

WOODSTOCK, JULY 18, 1860.  
Mr. ENRON.—While it is gratifying to every true-hearted son of New Brunswick to see or hear of the efforts being made in the cities, towns and villages of this province to do honor to the son of our noble Queen during his stay with us; it is not time that some action was taken by the people of Town Council of this place that it should not go unrepresented? True the Mayor is to be one of the guests of the city of Fredericton, and the Volunteer Companies are expected to assist in making up the pageant; but there are hundreds of our people who intend visiting Fredericton, who feel that another "Institution" which has contributed so often to our pleasure and amusement, should not be lost sight of on this occasion. The Brass Band of this place, numbering as it does, some twenty performers of well-arranged music, would without doubt acquire itself creditably. And as the Prince cannot further visit the interior of the province—which we regret—such addition would at least give a pleasing idea of the upper country and some English paper hereafter report the fact that in the bush of New Brunswick the people are actually white, and that the same music which stirred the hearts of our forefathers to battle in the cause of liberty is here known and appreciated. As the Town Council meets to-morrow evening we presume some action in respect of this suggestion will be taken, but as Carleton is now called upon to which into him, we hope for the credit of the place that a small appropriation will be made to aid in the general effort. A NARRATIVE.

MARSH.—About 200 Christians have been massacred at Sidon (Syria) by the Muslims and Druse population of the place. The English Consul General on receiving the intelligence despatched Her Majesty's Steamer Eirely to the place. The Captain reported that not less than 200 poor creatures—men, women, and children, including several Maronite monks, nuns, and priests—were on the burning and smoking of their own villages at Lebanon had fled to Sidon for refuge, were set upon by the Druse population of the suburbs, and by a few Druses who live there, and brutally butchered in cold blood, at the very gates of, and in the town itself. The Turkish soldiers on guard were seen by credible witnesses—the gentlemen of the American Legation—to be beyond the unfortunate Christians coming into the town for shelter.

LORD PALMERSTON'S IRISH TENANTS.—The Sligo Independent states that in the course of last week a number of young persons from among the tenantry of Lord Palmerston in that county were despatched as emigrants to Quebec. The party consisted of 20 men and 20 women, averaging from about 18 to 22 years of age, the entire expense of their passage and outfit being defrayed by his Lordship. Each emigrant received a supply of clothes and sent on their journey, after their arrival at Quebec, to whatever district of country they may select for their destination.

TO SETTLE COFFEE.—J. Armstrong, Columbia Co., Wis., recommends the following method: Brown the coffee in the usual manner, and when nearly ready, break an egg upon it, and stir well, to have each kernel coated. The coffee should not be warm enough to cook the egg. Use one egg to a pound of coffee; let it dry well before grinding. When baked for use, it will settle without further trouble.

The Halifax Chronicle speaks in highly complimentary terms of Dr. Ho, who has recently been appointed President of the University at Fredericton. No less than 200,000 hemlock trees are cut down annually in the United States to furnish bark for tanning purposes.

A lady's house-dress ought to last a long while; she never wears it out.

Take away my first letter, take away my second letter, take away all my letters, and I am still the same.—The Postman.

A young lady asks if we can throw any light upon kissing. We don't want it—the thing is done just as well in the dark.
