The Ploughs, Harrows, Horse Rakes, Hoes, Pitch Forks, &c., of Messrs. Willet, St. John, Todd, of this City, and McFarlane, of Douglas, were highly ticularly elegant article. The show of Farmers' produce showed the usual quantity of large Potatoes, monster Carrots, Turnips, and Beets, and indeed all these varieties were satisfactory. In the Temperance Hall there was a grand show of mammoth Squashes and other prodigious things, raised by Messrs. Pattison, Brayley, Barry (in the Gov-Wilmot's Grounds) In this horticultural depart phic.] ment the array from Government House Gardens of Turnips, Carrots, Red and White Watermelons, long Mangles, Red Beets, Parsnips, every variety of Tomato and Onion, was grand. Some very fine Apples were shown by Messrs. Babbit and C. Brod erick. The line of Hives on the platform was exceedingly interesting to look at, and some of the samples of Honey very tempting. The table of Butter was so also. The articles of domestic manufacture showed good specimens of Hose and Mitts, but there were very few.

At half-past six a numerous company assembled in the "Brayley House," and sat down to an excellent dinner, prepared by Mr. William Segee. Mr. Reid, President of the York County Agricultural Society, was in the Chair, supported on his right and left by the Attorney and Surveyor Generals. The Fredericton Free Masons' Band played during the courses, and after the delivery of each toast struck up an appropriate response-merry, or sentimental. Eleven toasts were given, and they were in some cases very neatly and happily responded to by the gentlemen fixed on by the Committee. The " Army and Navy" called out Mr. J. A. Beckwith, who, after complimenting British valor, amused the company with reminiscences of "Minchin's Own," and by expatiating on the prowess of the country, of the great progress it had already is 464 killed and wounded. made, &c.
