A PROTEST AGAINST EARLY RISING. Dr. Hall, in the February number of his Journal of Health,

One of the very worst economies of time is that filched from necessary sleep. The wholesale but blind commendation of early rising is as mischievous in practice as it is errant in theory. Early It consists in part of a SPLENDID ASSORTMENT of rising is a crime against the noblest part of our physical nature, unless it is preceded by an early

Multitudes of business men in large cities count it a saving of time if they can make a journey of a hundred or two miles at night by steamboat or railway. It is a ruinous mistake. It never fails to be followed by a want of general well feeling for several days after, if, indeed, the man does not return home actually sick, or so near it as to be unfit for a full attention to his business for a week afterwards. When a man leaves home on business, it is always important that he should have his wits about him-that the mind should be fresh and vigorous, the spirits lively, buoyant and cheerful. No man can say that it is thus with him after a

night on a railroad or on the shelf of a steamboat. The first great recipe for sound, connected and refreshing sleep is physical exercise. Toil is the

price of sleep. We caution parents, particularly, not to allow their children to be waked up mornings. Let nature wake them up-she will not do it prematurely : but have a care that they go to bed at an early hour! let it be earlier and earlier, until it is found that they wake up of themselves in full time to dress for breakfast. Being waked up early, and allowed to engage in difficult or any studies late and just before retiring, has given many a beautiful and promising child brain fever, or determined ordinary ailments to the production of water on the

HAIR-BRUSHES AND COMES .- Children should be taught, from their earliest remembrance, the impor tance of keeping the hair clean, not so much by the use of the comb as the brush. Two sorts of combs are used, fine and coarse, made either of ivory or disentangle the hair and prepare it for the brush. Upon being charged by a friend that he never went to bed sober, he indignantly denied the charge and gave the incidents of one particular night in proof.

"Pretty soon after I got into bed, my wife said, "Why, husband, what is the matter with you?-You act strangely ?" "There's nothing the matter with me," said

" nothing at all." "I'm sure there is, ' said she, "you don't act natural at all. Shan't I get something for you?" "And she got up and lighted a candle, and came

How evident it is that men make all the proverbs! See how hard upon women are a few of the most common ;-A rich man is never ugly in the eyes of a girl. A beautiful woman smiling bespeaks a purse weeping. Every woman would rather be handsome than good. A house full of daughters and a mother, four devils for the father. A man of straw is worth a woman of gold.

(is a Spanish exclamation of condolence.) A rich wife is a source of quarrel. It is an ill house where the hen is the talking bird. He who marries ill is very long in becoming widowed. A rich widow weeps with one eye and laughs with the other. A happy ccuple is a husband deaf and a wife blind. Woman's tears are a fountain of craft.

A PHARISEE. - A native New Zealand preacher defined a Pharisee as follows :- " A Pharisee," he said. " is like a bag tied half way down. The bag is open at the top, but anything put in it would not reach the bottom. So it is with the Pharisee. When he prays he opens wide his mouth, but keeps his heart close shut; he asks with his lips for things which his hear: cares not for. Besides, he always talks for effect-for even if God were to grant him the tidings he asks for, it would only be a waste of good gifts, for they could not get to the 70 bottom-bis pride, like the string that is tied round the bag preventing him; they would therefore do him no good, as they would reach no further than

A somewhat verdant-looking individual called upon a jeweler in Montreal, and stated that he had managed to accumulate, by hard labor for the few past years, some seventy-five dollars, that he wished to invest it in something whereby he might make money a little faster; and he had concluded to take some of his stock and peddle it out. The jeweler selected what he thought would sell readily, and the new peddler started on his first trip. He was gone but a few days when he returned, bought as much as before, and started on his second trip. Again he returned and greatly increased his stock. He succeeded so well, and accumulated so fast, that the jeweler one day asked how much profit he ob- TITCH PINE FLOORING .- Daily expected per Brig tained on what he sold.

Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon

their children." Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also these other affections which arise from it, such as ERUPTIVE and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM. RHEUMATISM, SYPHILITIC and MERCURIAL DIS-EASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIA-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-

As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so

simple and inviting. Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to

be forgotten. PREPARED BY DR. J. C. AYER & CO. LOWELL, MASS.
