THE FOUR FISHERS.

(WHO CAUGHT NOTHING.) (The verses are headed by a representation of four donkeys in a sail plight, attempting, with the assistance of a French dietionary, to decipher the Emperor's letter.) Four persons who thought themselves wisest and best It consists in part of a SPLENDID ASSORTMENT

Of all the folks in Liverpool town, To the Enporer Loosy a letter addressed, Intended to do him uncommonly brown; "We'll sound his plans so dark and so deep, From Liverpool brokers no secret ha'll keep," Said they, in their Lancashire toning.

Four Boobies went sniggering round all day Among the folks in Liverpool town, And thinking that none were so clever as they, And how they should come to a great renown: "We'll strike Lord Palmerston all of a heap, And show we can catch a French weasel asleep," Said they, their impertinence owning.

Feur Asses they hung down their lolloping ears, When the post came to Liverpool town, And brought them a letter whereof it appears Those donkeys couldn't translate a nown, For Looey knows well how his secrets to keep. And the Liverpool brokers unluckily reap A harvest of jeering and groaning .- Punch.

A LIST OF WONDERS .- Among the thousand of marvelous inventions which American Genius has produced within the last few years, are the following, compiled from the Patent Office report: The report explains the principles of the celebra-

ted Hohb's Lock. Its "unpickability" depends upon a secondary or false set of tumblers, which touches the real ones. Moreover, the lock is powder proof, and may be loaded through the key hole and fired off till the burgular is tired of his fruitless work, or fears that the explosion will bring to view his experiments more witnesses than he desires. A harpoon is described which makes the whale kill himself. The more he pulls the line, the deeper

trial, it froze several bottles of sherry and produced Gloves, &c., &c. mometer was up to eighty degrees. It is calculated from St. John or Fredericton at short notice, and at a 13 casks Currants; 50 boxes Trull's Saleratus; that for every ton of coal put into the furnace, it small advance upon cost. will make a ton of ice.

From Dr. Dale's examiner's report, we gather some idea of the value of patents. A man who has made a slight improvement in straw cutters, took a model of his machine through the Western States, and after a tour of eight months, returned with \$40,000. Another man had a machine thresh and clean grain, which in fifteen months he sold for \$60,000. These are ordinary cases-while such inventions as the telegraph, the plaining machine, and the India-rubber patents, are worth millions

Examiner Lane's describes new electrical inventions. Among them is an electrical whaling apparatus by which the whale is literally "shocked to death." Another is an electro-magnetic alarm, which rings bells and displays signals in case of fires and burgulars. Another is an electric clock which wakes you up tells you what time it is and lights a lamp for you at any hour you please. There is a " sound gatherer," a sort of huge eartrampet, to be placed in front of a locomotive,

perfectly distinct, notwithstanding the noise of the There is an invention that that picks up pins SHIRTINGS; COTTON WARPS. from a confused heap, turns them round with their heads up, and then sticks them in papers in reg-Another goes through the whole process of cigar

bringing to the engineer's ear, all the noises ahead

making, taking in leaves and turning out finished One machine cuts cheese; another scours the knives and forks; another rocks the cradle; and seven or eight take in washing and ironing.

There is a parlor chair patented that cannot be tipped back on two legs-and a railway chair that can be tipped back in any positioin without any leg at all. Another patent is for a machine that counts pas-

sengers in an omnibus and takes their fare. When charges double. There are a variety of guns patented that load themselves; a fishing line that adjusts its own bait and Repairs neatly executed, at moderate charges.

and a rat trap which throws away the rat, and then baits itself, and stands in the corner for an-There is a machine also by which a man prints

instead of writes his thoughts. It is played like THE subscriber begs leave to inform his friends and a piano forte. And speaking of pianos, it is estimated that nine thousand are made every year in the United States, giving constant employment to one thousand nine hundred persons and costing (third door above his old stand,) Main-street, where he over two millions of dollars.

THE MOST CURIOUS BOOK IN THE WORLD .- The following account of this truly wonderful specimen of human patience and skill is from a rough copy that I took some years ago. I regret that I cannot give any reference, as I made no note of my authority, which has now escaped my recollection. But this is of little consequence, as the book is well known to bibliographists. Perhaps the most singular bibliographic curiosity is that which belonged to the family of the Prince de Ligne, and is now in France. It is entitled Liber Passionis Domini nostri Jesu Christi, cum Characteribus nulla materia compositus. This book is neither written nor printed! The whole letters of the text are cut out of each folio upon the finest vellum; and being interleaved with with blue paper, it is read as easily as the best print. The labor and patience bestowed on its completion must have been excessive, especially when the precision an minuteness of the 700 BBLS. Alexandria Extra State and Superfine FLOUR—various brands; letters are considered. The general execution, in every respect is indeed admirable; and the vellum is of the most delicate and costly kind. Rodolphus II. of Germany offered for it in 1040 11,000 ducats which was paobably equal to 60,000 at this day .-The most remarkable is that it bears the royal arms of England; but it cannot be traced to have been in this country .- Notes and Queries.

SAVAGERY IN MODERN WARFARE .- Mr. Melendez gives the following account of an action between the Spaniards and Moors, from the letter of a friend of his who was an eye-witness:-" Echague ordered a square to be formed; and, at the impetuous charge of the Moors, the soldiers of the square retired. The enemy, imagingthat they were flying, rushed impetuously against the square, which, opening itself of a sudden, disclosed a battery. More than two hundred Moors perished. Another division came then, and To get your Picture taken in the highest style of the prevented the Moors from escaping. The fight beeame a horrible butchery; the Moors threw away their muskets and fought with their peculiar long Opposite the Post-Office, Water-street. daggers, called 'gumias.' The Spanish soldiers found themselves quite at home in this sort of strug a good assortment of plain and fancy cases, and other gle. They also threw away their rifles and seized material, the subscriber is confident that he can suit the their navajas. Nothing could equal the ferocity of most fastidious taste. the combatants. My friend says it is impossible to form an adequate idea of this fight. A Spanish soldier slew three Moors with his knife, and yet he had his face dreadfully cut by the gamias. Many had their entrails hanging on their legs, and went on more fiercely than ever. Not a shot was then heard. Spanish artillerymen, chasseurs, and even officers were fighting knife in hand. Two hundred Moors were killed in this savage combat, and nearly a thousand fearfully wounded. The Spanish loss was also very great."

ong farmers a great diversity of opinion respecting introduced in their Manufacture all the latest American as the most profitable way of planting potatoes. Some plant whole seed and some cut it. Mr. Alfred Lapham of Burrillville has for several years made exham of Burrillville has for several years made exThese Machines thrash and cleanse as much grain in the Gowan, Crown Land Office, will be attended to.

Drugs, Medicines, &c.

Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the con-

stitution, descending "from parents to children

unto the third and fourth generation;" indeed,

it seems to be the rod of Him who says, "I

will visit the iniquities of the fathers upon

their children." Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and Skin Diseases, St. Anthony's Fire, Rose, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DIS-EASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIA-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid.

Ayer's Cathartic Pills,

without which sound health is impossible in

contaminated constitutions.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC. are so composed that disease within the range of their action can rarely withstand or evade them Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so

simple and inviting. Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costive-ness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction

Ayer's Cherry Pectoral,

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to

MRS WINSLOW, An experienced Nurse and Female Physician, presents to the attention of Mothers, her SOOTHING SYRUP

For Children Teething, Which greatly facilitates the process of teething by softening the gums, reducing all inflammationwill allay ALL PAIN and spasmodic action, and is SURE TO REGULATE THE BOWELS. Depend upon it, mothers, it will give rest to

yourselves, and RELIEF AND HEALTH TO YOUR INFANTS. We have put up and sold this article for ever ten years, and can say, of it, what we have of any other medicine, FAILED, IN A SIN TO EFFECT A CURE, when timely used. Nevinetance of dissatisface. instance of dissatisfacer did we know an instance of dissatisfac-tion by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak, in this matter, "what we experience, and pledge our reputation for the fulfillment of what we here declare. In almost every instance where

from pain and exhaus tion, relief will be found in fifteen or twenty minutes after the Syrup is administered. This valuable prepara tion is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES 6 in New England, and has been used with never-failing success, in THOUSANDS OF CASES.

It not only relieves 22 the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC, and overcome convul sions, which, if not speedily remedied, end in death. We believe it the BEST and SUREST REMEDY IN THE WORLD, in all cases of DYSEN TERY AND DIAR-

RHŒA IN CHILDR WEEN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the
