Serofula, or King's Evil, is a constitutional disease, a corruption of the blood by which this fluid becomes vitiated, weak, and poor. Being in the circulation it pervades the whole of it, and may burst out in different parts of it. No organ is free from its attacks, nor is there one which it may not destroy. The serofulous taint is variously caused by mercurial diseases, long living, disordered or unsteady habits, and also by a filthy habit, the depressing vice of alcohol, and the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation." "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which in the lungs, liver, and kidneys, forms scrophulous tubercles in the glands, swellings; and on the surface eruptions or sores. This foul corruption, which renders the blood, depresses the energies of life, and to which the name of scrophulous constitution is given, but they have less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which although not serofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which is the result of scrophulous habits is due to this in this serofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

Persons who are afflicted with this serofulous taint, and their health is undermined by it. To cleanse it from the system we must renovate the blood by a purgative medicine, and invigorate it by a healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Eucalypti Remedy for Sarsaparilla

the most effectual remedy which the medical profession can give for this every where prevalent and fatal malady.

the expurgation of this foul disorder from the blood and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERYTH- EMATOUS SKIN DISEASES, ST. ANTHONY'S FIRE, RHE- UMATISM, PIMPLES, PUSTULES, BLOTCHES, BRUISES AND BOILS, THOIRS, TETTER AND SAL- MON PUSTULES, ETC. It is also the best remedy for PSYCHIC AND MERCURIAL DISEASES, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The power believed in *"purity of the blood"* is founded in truth, for it is the condition of the blood that determines the purpose and virtue of the human system. It is to purify and regenerate this vital fluid without which sound health is impossible in con- taminated constitutions.

Ayer's Cathartic Pills.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC.

It is so composed that disease within the range of their action can rarely be cured by any other medicine. Their ex- tracting properties search, and cleanse, and invigorate every portion of the human organism, correcting its various disorders, and restoring its daily vitality. As a consequence of these properties, their use is recom- mended in all cases of constipation, biliousness, and bow- elled down with pain or physical debility is astonished at the rapidity with which the energy restored by a remedy so simple and so safe.

Not only do they cure the every-day complaints of

gratify my American Albanses, containing certificate of their cures and directions for their use in the following complaints: *Catarrhes, Heartburn, Headache, arising from disordered stomach, Nausea, Laxities, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complicated stages of a low state of the body or obstruction of its functions.*

Ayer's Cherry Pectoral,
FOR THE RAPID CURE OF
Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases, and who have since once tried its efficacy, its superiority over every other medicine of its kind is too

to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by its use, and its benefits are so attested that they can never be forgotten, and produced cures so numerous and so remarkable to be forgotten.
