HE WANTS. He wants a wife for neatness noted; For taste unquestionably queted; With wholesome pride a very little; Of self-conceit no jot nor tittle; A harmless, guiltless vanity He'll not object to, if it be In soft desire that he should praise her; Indeed in his esteem 'twould raise her; He wants her to have beauty, wealth; He wants her to have youth and health: He wants a careful, prudent wife, To share the nameless ills of life; No will but his will ever answer: A downright "yes' -not "if I can, sir!"

He wants a wife to nurse his joys; To school his girls and-spoil his boys; To make and mend their clothes when able; To sit as mistress at his table; To boil his coffee, brew his tea; To every household comfort see; To hand his elippers, make his bed, To softly bathe his sching head; To be as fond as she is weak, And in all thinge his pleasure seek, He wants a wife (po r, modest man) Built on this great and perfect plan; He'll take her, then, for worse or better; Let us devoutly hope-he'll get her !

VULTURE HOPKINS .- John Hopkins was a wealthy London merchant, and resided in Old Broad street. He was the architect of nearly his whole fortune. which originated in some highly fortunate speculazions in the scocks, and was considerably increased at the explosion of the South Sea bubble in 1720. He obtained the name of "valture" Hopkins from his rapacious mode of acquiring his immense wealth. which at his death amounted to £300,000 On one occusion, he paid an evening visit to Guy, the founder of the flospital in Southwark, who was as ramarkable for his private parsimony as his public menificence. THE BLOOM ON AGE. - A good woman never grows old Years may passover her head, but if benevo lence and vision dwell in her heart, she is as cheer ful when the spring of life first opened to his view. When we look upon a good woman we never think of her age; she looks as charming as when the rose of youth first bloomed on her cheek. That rose has not faded yet; it never will fade. In her neighborhood she is the friend and benefactor. Who does not respect and love the woman who has pas- and Repairs neatly executed, at moderate charges. sed her days in acts of kindness and mercy? We repeat, such a woman cannot grow old. She will always be fresh and buoyant in spirits, and active in humble deeds of mercy and benevolence. If the young lady desires to retain the bloom and beauty of youth, let her not yield to the sway of fashion and folly: let her love truth and virtue, and so the close of life she will retain those feelings which now make life appear a garden of sweets, ever fresh and to the store formerly occupied by Mr. GEO. THREATENED EXCOMMUNICATION OF THE KING OF SARDINIA .- A correspondent of the Independance says: "There has been said of the probability that the Pope will launch a boll of interdiction against the King of Piedmont. Some of his counsellors perhaps might follow. If the Holy See should issue an interdict, the general belief at Turin is that the King would accept the struggle, and decide on embracing another religion, advising the people to follow his example. In the present state of public excitement, it is certain that part of the inhabit ants of Piedmont and the other provinces would follow their Sovereign in that line of conduct. It is even asserted that Victor Emmanuel has indirectly apprised the Pope of his intentions, throwing on him all the responsibility of what might occur.'

Peace is better than joy. Joy is an uneasy guest, and always on the tiploe to depart. It tires and wears us out, and yet keeps us ever fearing that the next moment it will be gone. Peace is not so, it comes more quietly, it stays more contentedly, and it never exhausts our strength, nor gives us one anxious forecast through Therefore let us pray fer peace. It is the gift of God-promised to all his children; and if we have it in our hearts we shall not pine for joy, though its bright wings never touch us white we carry in the world

Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The serofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending " from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla, the most e Tectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is com-bined from the must active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also the structure tions which arise 1 om it, such as ERUPTIVE and Skin Diseases, St. Anthony 4 Fire, Rose, or Erysipelas, Pimples, Puntules, BLOTCHES, BLAINS and I'S OILS, TUMORS, TEXTER and SALT RHEUM, SCALL) HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and d MERCURIAL DIS-BASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIA-TED OR IMPURE BLOOD. The popular belief in " impurity of the blood" is founded in truth. for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in
