TO THE RIPLEMEN OF CARLETON.

BY S. P. CRAWPORD.

Men of Woodstock! Boys of Richmond ! Sons of Britons, brave and true ! Born to prove yourselves heroic; Born to show what you can do!

Since British vigor thrills your souls, And British powers protect you, Let loyal actions crown your lives, And make the world respect you.

Then boldly form your Rifle Corps Against the days of danger; " For you're the boys that heed no noise,-"To fear each man's a strunger."

Then let the Gallie hordes advance Who threatened in their fury Our homes t' invade, our blood to spill, And or own themselves with glory.

And when they land upon our shores They'll find they have been cheated; And wisely beat a quick retreat, Or stay to be defeated.

Then for your rights, your faith, your Queen, Stand firm in every station, And never flinch a single inch, For foes of any nation.

Then boldly form your Rifle Corps Against the days of danger; "For you're the boys that heeds no noise,-"To fear each man's a stranger." South Richmond, January, 1860.

A STARTLING OCCURRENCE .- A lady, who had returned from India three years ago, was the other from Manchester, and warranted the best in the Market. day opening a drawer in what is termed a bullock trunk. To her amazement and horror a snake reared up its head; ber first impulse was to push! ance, and preceded her again up stairs. The snake Gloves, &c., &c. was not to be seen, and the gentleman thought it must have been his sister's imagination : so after some little time, the search was given up. The following morning a canary, that always hung in the lady's room, was missing, and in looking into the cage the snake lay curled up at the bottom of it, and all that remained of hird by his side. There TOULD invite the attention of the Ladies of Wood was no difficulty in destroying the snake, and was disc vered to be what is termed a green snake whose nature is to make a spring at the eye, when death immediately ensues. The marvel is how the reptile lived so long, and the lady escaped .-Court Journal.

MARRIAGE OF GENERAL GARIBALDI -Garibaldi is still at Fmo, in the neighborhood of Como, where on the 3rd, he met with an accident while riding on a restive horse. The news at first occasioned some alarm in Milan; but a letter from his medical at tendant, published in the newspapers, removed all apprehension. Further evidence of the slight nature of the injuries is found in the fact that on the 7th the gallant General was married to the eldest daughter of M Ramondi, an Italian patriot, who possesses one of the most beautiful of the residen cee on the Lake of Como. In 1848 M. Ramondi was obliged to take to flight; his property was confiscated, and his palace used by the Austrians as a barrack. Under the new regime, however, every thing has been restored to him. Great rejoicing will be given. took place at Como on the occasion of the marriage of his daughter to Garibaldi. A letter dated Paris the 14th, says the report of Garibaldi's marriage is

LORD PALMERSTON .- Lord Palmerston, in his 76th year, seems, says the Liverpool Times, as lively and versatile as River, in the old comedy. judging by the display which he has made this week at Ramsey. He delivered a lecture, very valuable for its practical truth on the mode of huilding cottages, and how to reform untidy people by Required for the trade, which will be sold low for cash. making their homes comfortable; he indulged in a flying dissertation on short hand, and the enormous etrides which the science of screnography has made in our day; he threw out valuable suggestions on the subject of practical farming, and showed that that stingy husbandman was a bad political econemist wh gave unremunerative wages to his laborers In short, his Lordship was overflowing with practical wisdom, the fruit of long experience and

What is Life -The mere lapse of years is not life. To eat, and drink, and sleep-to be exposed the public generally that he has to darkness and the light-to pace round in the mill of habit, and turn thought into an implement to the store formerly occupied by Mr. GEO. F. PALMER, of trade-this is not life. In all this but a poor (third door above his old stand,) Main-street, where he fraction of the consciousness of humanity is has on hand :awakened, and the sanctities still slumber which make it worth while to be. Knowledge, truth, love. beauty goodness, faith, alone can give vitality to the mechanism of existence. The laugh of mirth that vibrates through the heart—the tears that freshen the dry wastes within-the music that brings child hood back-the prayer that call the future nearthe doubts which makes us meditate—the death which startles us with ministry—the hardship which forces us to struggle-the anxiety that ends in trust-are the true nourishment of our natural being.

A Democrat who owns a lead mine at Shullsburg Wis., was a candidate for the Legislature. O election day he hired fifty three Republicans work in his mine; after he had go: them all 140 fe t below the surface, the ladder was drawn to have some new rounds put in it, and he neglected to re turn it till the polls were closed, which resulted in his election by fifty two majority.

Hon. Neal Dow, of Portland, Me., had a parrow escape from a terrible death on Wednesday last .-While walking across a rafter in his steam tannery he fell a distance of sixteen feet and struck upon a boiler, narrowly escaping a vat of scalding hot water. He was picsed up insensible, but is now in a fair way of recovery.

A foreign exchange gives an account of a curious sentence which has been passed at Unterwalden, Switzerland. A prisoner was put to the bar charged with disturbing the public order. Theoffence being proved, he was sentenced to a month's imprisonment, and to a regular attendance at the morning and afternoon religious services for two years.

The stones on the corner of the Exchange in Boston are larger than any single stone in Cleopatra's I "Rio Grande." from Wilmington: needle; and those now in erection on the U. S. Treasury building at Was ington are much heavier than any stone of Pompey's Pillar or the Pyramids of Egypt.

A COMPLIMENT IN SEASON .- " My dear madam, you really must not eat that," said a gallant g-ntlemen to a beautiful lady, as he abruptly snatched introduced in their Manufacture all the latest American as away a plate of bentiful duck that had been placed well as some important original improvements. He can ralle MAP OF NEW BRUNSWICK, prepared by Mr. before her : " I realiy cannot allow you to commit confidently recommend them as being superior to any ever cannibalism." The lady, buried under a rose hear of blushes, declared she would never forgive him. As a proof of it, they were married next week.

The island of Celebes has become Christianized. Some missionaries of the Netherlands Missionary Society had labored there for years without much apparent success, having met with better opposition. Recently, however, some of the people have suddealy become converted, and threw down their idols, and movement spread from place to place.

The" local" of the Philadelphia North American is prepared to fill all orders entusted to his care, with thinks "the day may yet come when men will be propelled by steam power, the boilers being placed in their coat-tail pockets."

Be wise to day !- 'Tis madness to neglect a cough, or cold Consumption may follow, and Dr. Wistar's Balsam of Wild Cherry, cures the latter I Ground (good,) Best Indigo, Fustic, Blue Vitriol,

There's a vile counterfeit of this Balsam therefore be sure and buy only that prepared by S W. Fowns & Co., Boston, which has the written ignature of i. BUTES on the outside wrapper.

Drugs, Medicines, &c.

Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seen's to be the rod of Him who says, "I will visit the iniquities of the fathers upon

their children." Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrot ulous constitutions not only suffer from scro fulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their na.ture, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

are aggravated by the same cause. One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and Skin Diseases, St. Anthony's Fire, Rose, or Envirence, Pimples, Pustules, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DIS-BASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIA-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-

Ayer's Cathartic Pills,

rilla is to purify and regenerate this vital fluid,

without which sound health is impossible in

contaminated constitutions.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC are so composed that disease within the range of their action can rarely withstand or evade them Their penetrating properties search, and cleanse, and invigorate every portion of the human organ-ism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so

simple and inviting. Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costive-ness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Janudice, and other kindred complaints, arising from a low state of the body or obstruction

Ayer's Cherry Pectoral, Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publiely known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape cl servation, and where its virtues are known, the public no longer hesitate what antidote to employ fo. the distressing and dangerous affections of the pulmon ry organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produccel cures too numerous and too remarkable to be for gotten.
