The Liberal Cause, From the reports which reach us from all parts

of the province, the inferrence is unavoidable that a Liberal triumph will attend the election. Of course St. John in her action must to some extent influence the elections in other counties, and there the probability seems to be that the whole Liberal taket will be returned. The ticket there, in itself is a strong one. Hon. S. L. Tilley, who, we imagine it would be impossible to keep out-Hon. Mr. Watters, who during his Legislative career has done himself, his party, and the House credit. Mr. Cudlip, one of the most straight forward and energetic, men in or out of the House; Mr. Jordan, a man of tried recommendation as a County Legislator; Mr. Robertson, representing a large and important industrial interest; and Mr. Skinner, a young man, New Brunswick born, who through many difficulties has by his energy, and attention, and steadines of purpose brought himself to a position where he commands the respect of his fellows, for his talent and moral worth. Not only is the ticket thus strong in itself, but the party in St. John is united -firm-determined, while the party who call themselves conservatives, and insist upon making a second party are divided in sentiment, and are acting without concert. "The weather has been unusually cold for the ruary. There have been some severe snow-falls in the midland and western counties, and the low temperature, in the fifth month, is causing some uneasiness.
