## PARENTS.

It will not be denied that the position of Parent, is the most responsible situation in which an individual can be placed—one of those mighty and important consequences, as can hardly be conceived of by the human mind, and one in which it is necessary for the occupant, to exercise the utmost of his abilities in order to fill it with honor to self, and benefit and credit to his offspring. Parents, do you fully appreciate the fearful responsibility placed upon you? do you ever remember that your acts and characters are to live after you, in your children? do you often reflect, that the places, offices and situations, intellectually, politically and morally, which now know you, in a few short years will know you no more for ever, and that when you leave this stage of action, your children make their entry, to supply your places. If you do, we know you must be fully sensible of the wonderfully important obligations under which you are placed, to carry out your character as Father or Mother, in such a manner, as will not hereafter bring your grey hairs in sorrow to the grave, but in such a way as will enable you to lie calmly down to death, confident that your names, memory and life may be honorably kept alive in the career of your children.

It has been said, we fear too much truth, that we have no boys now—that the sunny, happy, short lived days of carefree boyhood are "skipped over," and the infant steps from the cradle—reaching over the old fashioned joys of boyhood and youth, to the stage of manhood; this is a progression too rapid even for us, who acknowledge ourselves, much in favor of progression in general.

Youth is the time to serve an apprenticeship for manhood; the time when those principles should be instilled into the mind, which when becoming fully matured will ripen the mind of youth and make him man. Being well aware then of the weighty responsibility resting upon you as Parent; do you govern your every action and word in accordance therewith? If you do, all is well; but if on the contrary you neglect to perform your duty in this respect, you may live to see the day, when with a broken heart you will wish that you had done so. We cannot leave this subject, without one word kindly spoken to an evil, a fast spreading evil which now bids fair to vitiate and ruin many of the youth of our day—we refer to the increasing habit parents are falling into of allowing their children to be out at nights. Depend upon it, there is no one thing more than this, that so soon and so surely tends to instill evil habits into the mind of the young, as allowing them to wander "fancy free," in the evening; instead of being at home under your guardianship, instructing themselves with some useful and interesting book, enjoying the social communion around the family hearth, they are allowed to prowl the streets, chasing their own companions, first learning the profane word, then leaping to it, to use tobacco or worse to visit the bar-room—a fearful liberty to grant youth. Keep your children home nights. There by the fathers example, the mothers care, train them up, that in after years the world may point to them and say, just like their parents.

We are requested to state that a meeting of the members of the Mechanics Institute, will be held at the office of D. L. Dibble, on Monday evening next 2nd December, at 8 o'clock, for electing Directors, &c., a general and punctual attendance is requested.

FARMERS ITEMS.—Why is it that the farmers in this County will not be prevailed upon to show a little pride in making public, through the columns of the newspaper, items of interest in connection with their farming operations, as farmers in other places do. Over the line of A. C. a big squash, 3 lbs. a large hill of potatoes or a calf of unusual size, they each and all relate "their experience" to the Editor. Why is it not so here? Why will not our farmers take the trouble of letting the world know, by the returns of the Harvest, the yield of their potatoes and other roots, the weight and quantity of their grain and the size of their stock, how productive and profitable for farming, a County Carleton is.

Our friend Hall, in the *Aroostook Herald*, remarks the fact that Mr. Jeremiah Whitney has recently erected a Wood Shed. We hail the progressive tendency of things in Presque Isle. Here we have had several sheds put up within the last few weeks, and we had almost overlooked a small wooden building erected by Hon. Charles Connell, at the corner of Water Street and the bridge, it seems scarcely worth a notice, being only two stories high, eighty feet long and intended to accommodate four stores of good dimensions, with a public Hall 25x50 in the attic.

THE OTHER SIDE.—We published a letter, received from a subscriber in the south. The letter was not intended for publication so far as we are aware, but the writer cannot object to have his views, which he regards as so truthful put forth here, where they may have the effect of convincing some of the benighted anti-slavery people of this region. His logic and calculations may also be very sage and correct, but unless he can establish slavery to be morally right, whether Wall Street caves in or England is disappointed in her ambitious projects—which he has not attempted, then he is beating the air. It is surprising how a man's feelings and views can become perverted and changed by the force of unfortunate associations. We would only beg of the writer to reflect, as to whether he is not in this matter blinded to the better teachings of his youth, and inculcations of his former associations, by the "Almighty dollar." Of course we do not publish a paper exclusively for him, and regret that the boasted freedom of the land he lives in, consists in a mob power, which forbids a man even reading that which is opposed to the peculiar institutions—the inference is irresistible.

A Parker for the *Aroostook Pioneer* and *Merald*. Bros. Gilman and Hall are wont to blow in right good shape for *Reston*, which, if they are to be believed, bears all creation, including in its productions pretty Girls and fat Hogs. We would draw their attention to the size of one, of which the owner says in writing he considers it no great thing for York County. Mr. Wm. Watts killed, the other day at Frederick a Hog not quite 18 months old which weighed 404 lbs.

THE WEATHER.—On Tuesday last we had about six inches of snow it was followed, however by rain, but before it entirely disappeared there was another change in the atmosphere, and since then we have had cold freezing weather. All the indications seem favorable for the immediate setting in of winter.

We are requested to state that Elections for Councilors are to be held on the 25th inst., the last Tuesday, according to law; twenty days notice to be given by Parish Clerks.

An unusual pressure of advertising has excluded the usual amount of Editorial matter this week.

FIRE.—Our town was again startled on Tuesday evening, by the cry of fire resounding through our streets. It proved to proceed from a two-story house owned and occupied by Mr. Thomas Green, Lower Corner. The building was wholly destroyed. We understand there was a partial insurance.

We understand that in answer to the request of our merchants and others (as referred to in our last) through the Hon. Charles Connell, the Provincial Secretary has ordered the Treasurer to forward the Deputy Treasurer here a box of the new cents.

BOOK NOTICES.—From Leonard Scott & Co., New York, we have received the October number of the *London Quarterly Review*. The contents are: The Brazilian Empire; Deacons; Public School Education; Wills and Will-making, Ancient and Modern; Eliot's Novels; Arrest of the Five Members by Charles the First; Iron-roads and Wooden Walls; Competitive examination. Price \$2 a year.

From the same publishers we have the Edinburgh Review, for October, as usual containing many rich literary gems. Among the choicest of these we notice, The Churches of the Holy Land; The Grand Remonstrance and the United States under Mr. Buchanan. Price \$3 per year.

## COMMUNICATED.

To the Editor of the Carleton Sentinel.

Nov. 12th, 1860.

MR. WATTS—SIR: Inclosed is an article out of the *Sentinel* of September, which comes with rather bad grace from a man calling himself white, to his only Georgia subscriber, knowing the politics of said subscriber. In this article you have made assertions to which you nor your Black Republican Nankeen neighbors are willing to subscribe at your own family fireside, that is, that the only superiority we possess over the negro consists in his skin.

God have mercy on such self-degradation, if that is the lofty eminence to which you have soared, and at length attained.

Passing over your contradiction in your article, I ask the question, when have civilized European nations eaten their vanquished in time of war? Or, upon the death of their kings and rulers, slain for the feast of the occasion, thousands of their own color?

You exhort the Black Republicans to follow the glorious example of the mother country, and cast off the black spot upon her character. Has it been to the glory of the mother country or the good of the negro that the latter were emancipated in the island of Jamaica? Jamaica used to export millions worth of its products to all parts of the world. Now what does it do? The facts are too well known to be written here. England, to-day, would not have slavery abolished for millions; on the contrary, she is more than anxious for a dissolution of the Slave and Free States. It is to her interest that it should be. She is aware as soon as that calamity falls upon the North, she can and will get Southern products from first hands. She also knows that northern shipping is now protected, to the exclusion of English shipping. She also knows that the greater portion of Yankee shipping is depending upon southern ports for their carrying trade. She is also aware that northern factories are competing with herself, to the detriment of English factories. And last, though not least, she knows that, in the event of a dissolution, northern shipping will be excluded and English shipping patronized.

For my own part, if a dissolution can be effected without bloodshed, God speed the day! we can live without the North; we have the material necessary for a self-sufficiency. Dissolve, and civil war is inevitable. In the North, already, it has commenced; the Astor House has been fired, and up to this writing no more news as to the result.

What would become of the numerous factories and hundreds of thousands of poor factory girls, now depending upon negro labor for the food they eat, and the clothes they wear? The result is pregnant with fearful forebodings upon the New England States. Already in Wall Street property has fallen twenty per cent; New York will have attained its magnitude; the great city will divide and become a Sodom and Gomorrah, while the South will grow rich at Northern expense.

In conclusion, I would state that, when you fit to insert such diabolical outrages upon the white race, in my once favorite *Sentinel*, please retain the number intended for me, and oblige your subscriber.

A similar article will ensure the discontinuance of your paper.

The Government have been in session in the City of St. John during the present week, and have under their consideration the question of a water terminus for the railway. After fully considering the matter they concluded to wait until some anti-slavery City Wharf improvements should be made in connection with any mention that the Chamber of Commerce have concluded to act in concert with the Chamber of Commerce in the establishing of a continuous deep water wharf from the North side of the Hon. John Robertson's wharf to Red's Point, shutting up all the slips with the exception of the market slip, to have a drawbridge for the accommodation. When this much wanted undertaking shall be completed, the Government intend to continue the track of the Railway across Mill Street and down the deep water wharf to Red's Point. This will afford accommodations to our shipping.

The question may be asked, why not run the track at once to some wharf where the shipping interest may receive at least some accommodation until these arrangements are perfected? In answer to this we say, that the track could be carried to but one wharf, and that would cost an immense sum of money for what is called land damages, and if the continuous deep water wharf is built, that expense would be entirely lost, as the public must have considerably more accommodation than one wharf can give them; and by carrying out the idea of running the cars to Red's Point, all the shipping interests can at once find the accommodation required.

We hope the Common Council will without delay assist the Chamber of Commerce in carrying on to completion the building of the wharf proposed, as the shipping that come into this port at present do not find the accommodation they require, and the sooner the work is finished the quicker the Government will be able to lay down the track for the water terminus.

The Globe says it has been informed on good authority that George Howard, (colored) the well known pugilist, was killed at Hampton yesterday, under the following circumstances. He and another man were "settling" with the gloves, and the match becoming pretty "tight," his opponent cleared his hands and dealt Howard a furious blow, which fell him on the spot. He lived but a short time. A Coroner's inquest was held, and a verdict in accordance with the above was rendered.

STATE DEFEATER.—MONTPELIER, Vt., Nov. 6.—It is certain that Hon. H. M. Bates, late State Treasurer, is a defaulter to the State to a large amount. It is asserted, on what is deemed reliable authority, that thirty thousand dollars will not cover the deficit, and it may exceed even forty thousand dollars. Measures were taken last evening to secure the amount by attaching the property of the bondsman.

Oxydized Bitters.—The cures effected by this remedy are truly astonishing. The confirmed Dyspeptic regains his native vigor, the Asthmatic "breathes freer," Indigestion disappears. These Bitters produce these wonders. Let all who suffer try them.

## THE CARLETON SENTINEL.

## THE SECESSION MOVEMENT.

AUGUSTA, GA., Nov. 20.—The largest meeting ever held in Greene county, Georgia, assembled on Friday. The most influential men in the county participated in a conservative character. They were adopted unanimously, urging a State Convention of all parties, where the evils threatening the destruction of the Union could be clearly considered, and appealing to the people of the Union to discard the notions of agitating politicians and demagogues of all sections, and to rally in defence of the imperial government, changing the politicians have stirred up the present excitement and distrust by pandering to the passions and prejudices of the people, and by keeping each section ignorant of the patriotic, conservative and catholic feeling of the other; mutually exasperated by the incendiary representations of hungry office seekers, both sections find themselves in a bitter controversy which they had no mind in bringing about.

A large meeting was held in Hancock county on Saturday, which adopted firm conservative resolutions, denying that the mere election of Lincoln was a cause for secession, but denouncing the unfriendly agitation of many of the free States.

An impatience of the county meetings here thus in favor of secession. Many, however, were strictly conservative. Some favor retaining legislative and executive power, and an avowed State Convention. They all oppose coercion of the seceding States.

A meeting in Bryan county declared that no action in secession or hunters should hereafter operate in their midst, and those who were found doing so in that section are notified to leave.

PETERSBURG, N. C., Nov. 20.—The Legislature organized yesterday. There was no excitement.

WILMINGTON, N. C., Nov. 20.—A secession meeting was held last night. Corps of Minute men are being formed.

KANSAS, Nov. 19.—The Legislature has assembled. A strong southern feeling is manifested. The Governor's message, which will be sent into the Legislature to-morrow, takes strong southern grounds. He recommends a conference of the neighboring States, and a State Convention on southern claims; also the enforcement of all men between citizens and non-citizens, and the raising of a corps of ten thousand volunteers, armed and equipped. He goes for secession.

NEW YORK, Nov. 21.—The *Times*' Charleston correspondent says that one heavy cotton and other smaller issues have been suspended. The banks still refuse to discount. Cotton is declining. Several plants have been ordered to forward cotton. There is completely paralyzed. Virginia counties are being burned, throughout the South, and every suspected person is to be ordered to leave.

RICHMOND VA., Nov. 21.—The *Enquirer* of to-day publishes a letter from Gov. Letcher in reply to Mr. John Bush of Pennsylvania. The Governor says that secession from duty on the part of the North is the true cause of the trouble and that the people of the North to correct their public sentiment and discharge their constitutional obligations with strict fidelity. He indicates his determination to defend the stand of Virginia as a mediator—an armed mediator, if necessary—between the South and its assailants.

The Richmond and Petersburg banks suspended specie payments to-day.

IRELAND—Limerick, Oct. 20.—News has just reached this city of one of the most atrocious murders perhaps ever perpetrated. It appears that Alderman W. Sheehy left this city last evening for his property near Tulla, county of Clare. After his arrival he was met by a party of men, who entered his house, or else first beaten to death and then his house set fire to, as his head and arm were found chopped off, the former still missing, and his house and property burnt. No cause can be assigned for the deed. Mr. Sheehy was originally a grocer and hotel-keeper in Limerick, an ardent man of Union, and formerly a bachelor. The property, worth about £4000 a year, he gave up ten years ago for £4000. The *Chronicle* denies that the cause of this inhuman outrage was the eviction of tenants from his land, and says that with the exception of one inhuman character, he never so acted since the property came into his possession; and that what have been misrepresented as objections were mostly founded on treasuries.

KING VICTOR EMANUEL AND GARIBOLDI.—A letter from Naples, dated the 20th of October, gives the following account of the interview between Victor Emmanuel and Garibaldi. Garibaldi had taken up his quarters at a small inn about four miles and half between Teano and Sperandano, on the 25th. He ordered his column to advance and take up position, and sent Count Treccani to see the King. On the following morning Count Treccani and his staff came to inform him that Garibaldi was within an hour's march, and the King at last arrived.

Garibaldi left immediately with his staff, and three quarters of an hour afterward he came in sight of the head of the Piedmontese columns. He put spurs to his horse. The Piedmontese advanced as follows: The 23rd and 24th regiments of the Common Brigade, the 20th of the 1st division; the 1st of the 2nd division; the 1st of the 3rd division; the 1st of the 4th division; the 1st of the 5th division; the 1st of the 6th division; the 1st of the 7th division; the 1st of the 8th division; the 1st of the 9th division; the 1st of the 10th division; the 1st of the 11th division;
