FIGHT. HEALTH AND DISCIPLINE. Health and discipline are the most important elements EXTRA STATE FLOUR-Now landing ex brig in an army to insure success. Discipline without health, will prove as ineffectual as shot without powder. Health

It is, therefore, of the greatest importance, that the system of medication best adapted for the protection of soldiers against sickness, as well as that known to be the Chenille and Plush Scarfs; Chenille and Silk Hair Netts; most speedy and effectual in restoring the sick to health, without regard to professional prejudice, be adopted. This is no time for medical martinents to quibble about professional dignity. All the dignity the profession can bring to bear will neither prevent sickness among the troops, nor cure those afflicted. Our armies to be successful, must be kept in a healthy condition; and the most sure means of securing this desideratum is through the remedial powers of.

RADWAY'S READY RELIEF. which has already prove itself in over fifty regiments now at the seat of war near Washington, to be a positive preventive against sickness in the form of CHILLS AND FEVER, FEVER AND AGUE, TYPHOID FEVEB, BILIOUS FEVER, DIARRHOEA, DYSENTERY, SMALL POX,

and other malarious and infectious diseases. Bear in mind, we say, that Radway's Ready Relief will protect, the troops exposed to these diseases against attacks. Now, it is conceded by all the medical men in our army, that they have no reliable means to prevent attacks of these diseases, neither have they any positive assurance of curing the sick; but, on the contrary, the majority of the sick, seized with fever and ague, typhoid, bilious and other fevers, either die, or linger along, until they are reduced to mere wrecks and walking skeletons. Experience has established the fact that the treatment of calomel, quinine and mercury, in cases of fever an ague, typhoid fever, and other fevers of this class, is more injurious in camps than in private practice when we take into consideration that canvas walls and exposure to heavy dews and the malaria from pools of water and damp grounds, prove but a poor shelter for the sick, we may readily conjecture that the penalties of mercurial and quinine treatment will, in the majority of cases, be exhibited in the form of rheumatism, neuralgia, pains and stiffness in the joints, enlargement of the liver, jaundice, yellow janders, dyspepsia. pleurisy, coughs, colds, &., which will cling to the unfortunate patient for
