M were in of losing their religion through being scattered among the Protestants of the States. father always said they should be well

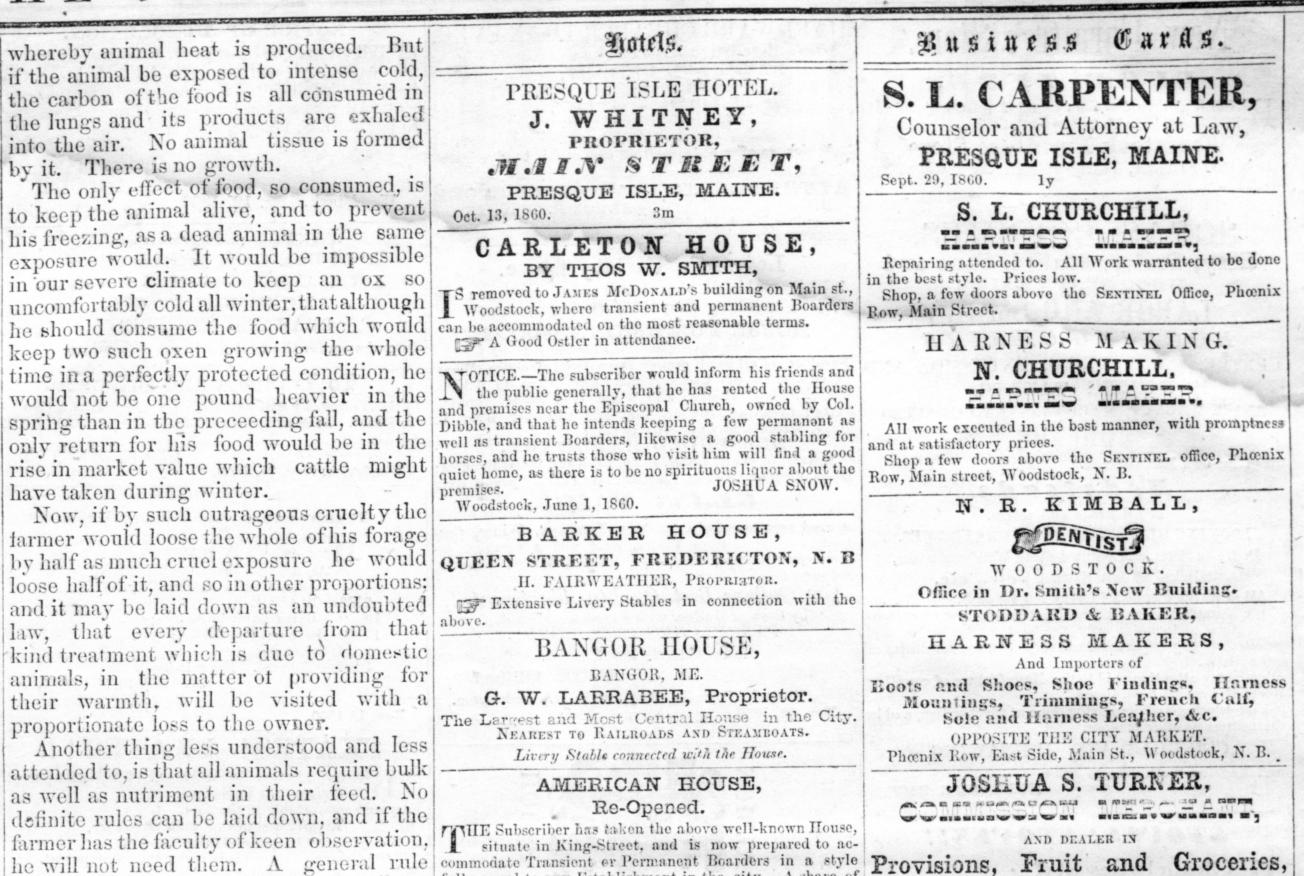

whereby animal heat is produced. But if the animal be exposed to intense cold, the carbon of the food is all consumed in the lungs and its products are exhaled into the air. No animal tissue is formed On the Preservation of Potatoes. by it. There is no growth.

The only effect of food, so consumed, is to keep the animal alive, and to prevent Look-There, neighbor I reckon you his freezing, as a dead animal in the same never saw finer potatoes than these, the exposure would. It would be impossible in our severe climate to keep an ox so first day of June. Let me help you to that one. you see it is cracked open ; it's uncomfortably cold all winter, that although mealy, like potatoes in November; how he should consume the food which would sound it is; it cuts like one of those French keep two such oxen growing the whole biscuits that your wife sent over to us the

other day, when we dined together under would not be one pound heavier in the IN the public generally, that he has rented the House the big elm at the further end of your spring than in the preceeding fall, and the and premises near the Episcopar church, owned by can only return for his food would be in the well as transient Boarders, likewise a good stabling for rise in market value which cattle might horses, and he trusts those who visit him will find a good Luck .-- I see, it's just as you say; such a potatoe is a meal for any man; it's a have taken during winter.

Now, if by such outrageous cruelty the Look .- And isn't it worth some trouble tarmer would loose the whole of his forage to have such potatoes all the time, till by half as much cruel exposure he would QUEEN STREET, FREDERICTON, N. B loose half of it, and so in other proportions; Luck .- Indeed it is, and I take a deal and it may be laid down as an undoubted Extensive Livery Stables in connection with the of pains to have such but I dont succeed. law, that every departure from that above. kind treatment which is due to domestic animals, in the matter of providing for their warmth, will be visited with a

proportionate loss to the owner. Another thing less understood and less attended to, is that all animals require bulk as well as nutriment in their feed. No them good. I should like to know how definite rules can be laid down, and if the farmer has the faculty of keen observation, THE Subscriber has taken the above well-known House, situate in King-Street, and is now prepared to acwill be of service, and that is to distribute fully equal to any Establishment in the city. A share of the coarser and less nutritions food with He then described the persecution which, in conse- sunned, and then put in a very dry place. the finer and more nutritious, as corr meal or oil-cake with straw or any coarse Luck.-Why, when they sprouted so like regularity, instead of living for a time almost wholly on fine nutritious food, and longer in the cellar, he used to bring them then as exclusively on the coarse and comparitively innutritious.

Ayer's Sarsapa FOR PURIFYING THE BLL And for the speedy cure of the subjoined var. Scrofula and Scrofulous Affections, such as Tumors, Uleers, Sores, Eruptions, Pim-ples, Pustales, Blotches, Boils, Blains, and all Skin Diseases.

J. C. AYER & Co. Gents: I feel it my duty to aoknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the seab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease is gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours, ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of Dropsy, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a danger-ous attack of Malignant Erysipelas by large doses of the same; says he cures the common Eruptions by it constantly.

Bronchocele, Goitre, or Swelled Neck. Zebulon Sloan of, Prospect, Texas, waites : "Three bottles of your Sarsaparilla cured me from a Goitre-a hideous swelling on the neck, which I had suffered from over two years."

Lencerthea or Whites. Orarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes : "T most cheerfully comply with the request of your agent he saying I have found your Sarsaparilia a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in Female Diseases of the Scrofnlous diathesis. I have cured many invetcrate cases of Leucorrhea by it, and some where the complaint was caused by ulceration of the uterus. The nlecration itself was soon cured. Nothing within my knowledge equals it for these female derangements." Edward S. Marrow, of Newbury, Ala., writes : " A damgerous orarian tumor on one of the females in my family,

quence of his secession; he underwent at the hands He used to put them in the wood-house of the Romish priesthood and their million of slaves amongst the French Canadians; and after stating that he believed the light of spiritual freedom was dawning on the country, concluded by an earnest appeal for funds to assist him in the establishment in the cellar, and close all the windows and bank up as warm as possible. ich had defied all the remedies we could amploy, has at length been completely cured by your extract of Sarsaparilla. Our physician thought nothing but extirpa-tion could afford relief, but he advised the trial of your Sarsaparilla as the last resort before enting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphills and Mercurial Disease.

DR. J. C. ATER. Sir: I chcerfully comply with the request of your agent, and report to you some of the

request of your agent, and report to you some of the effects I have realized with your Sarsaparilla. I have eared with it, in my practice, most of the com-plaints for which it is recommended, and have found its effects truly wonderful in the cure of Venereal and Mer-curial Disease. One of my patients had Syphilitie ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by sec-ondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration of the face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered extive to the weather that on a damp day she suffered ex-eruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859. DR. J. C. AYER. Sir: I have been afflicted with a pain-ful chronic *Rheumatism* for a long time, which buffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was citated. I thick it a wonderful medicine. J. FREAM. attacked. I think it a wonderful medicine. J. FREAM. Jules Y. Getehell, of St. Louis, writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from no other cause than derangement of the Lirer. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because be said he knew you, and any thing you made was worth trying. By the blessing of God it has cared me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ul-ceration, Carles, and Exfeliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

## Dyspepsin. Heart Disease, Fits, Epilepsy, Melancholy, Neuralgin.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Aver's Cherry Pectoral, FOR THE RAPID CURE OF

Conghs, Colds, Influenza, Hoarseness, Croup, Bromebilis, Incipient Consumption, and for the Relief of Consumptive Fatients, in advanced stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and hung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth Few are the communities, or even families, among them who have not some personal experience of its effects some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

MRS. WINSLOW. the ettention of mothers her

SOOTHING SYRUP FOR CHILDREN TEETHING,

which greatly facilitates? the process of teething, by soft ening the gums, reducing all inflammation-will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS. Depend upon it, mothers, it will give rest to yourselve

RELIEF AND HEALTH TO YOUR INFANTS. We have put up and sold this article for over ten years, and CAN SAY, IN CONFIDENCE AND TRUTH of it, what we have never been able to say of any other medicine-NEVER HAS IT FAILED, IN A SINGLE IN STANCE. TO EFFECT A CURE, when timely used,-Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of it a magical effects and magical virtues. We speak in thi matter "WHAT WE DO KNOW," after ten years' expe rience, AND PLEDGE OUR REPUTATION FOR THE FULFILLMENT OF WHAT WE HERE DECLARE. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twen ty minutes after the syrup is administered. This valuable preparation is the prescription of one o the most EXPERIENCED AND SKILLFUL NURSES in

New England, and has been used with NEVER FAILING SUCCESS in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost iustantly relieve

GRIPING IN THE BOWELS, AND WIND COLIC.

and overcome convulsions, which, if not speedily remedy is end in death. We believe it the BEST and SUREST RE-MEDY IN THE WORLD, in all cases of DYSENTERY and DIARRHGA IN CHILDREN, whether it arises from teething, or any other cause. We would say to feverymo
