Bees and Bee-Keeping.

[Concluded.]

From observations which I have made I conclude that propolis is a vegetable substance, collected but not generated by 1.50 the bees; and that it partakes very much of the nature of the tree, shrub or weed from which it is gathered. I have failed to discover a trace of beeswax in it, as in analyzing it, was supposed to have Calais, Portland and Boston. 1.00 been apart of the original composition.

FEEDING, WATERING, ETC. It is a little curious, and yet a fact, that bees will cease to gather pollen when the honey fails; for instance, toward noon Meals extra. Berths and State rooms secured on board the honey is mostly all gathered or evaporated for that day, and but little more can be procured; after that time they will information enquire of also cease to gather pollen, although it might be obtained in great quantities. When this occurs, put out plenty of honey or feed (if they know the way, having Wood Moulding & Planeing Mill, been fed); in less than an hour's time they will be vigorously carrying in pollen, as

well as the honey or feed. Feed bees liberally with honey or syr- tion of finish required in House Building. 1,50 Best Linen Cloth, 10yds 2,00 pursue this course thoughout the entire for sale, or made to order at short notice. The quantity 1,00 of flowers that yield pollen is much greater than those producing honey, and all 1,25 flowers that produce honey yield more or less pollen; but there are many produce

1,25 pollen, but no honey. It is advisable to feed bees with white Street. 1,00 or refined yellow coffee sugar, from the 2,50 close of honey gathering from the fruit 2,00 tree flowers, (which in this latitude, 42 degrees North, occurs from the tenth to the twentieth of May) until the white clover comes in bloom, which is generally 1,50 about the tenth of June; in proportion to 1,50 the quantity of comb (if any) necessary 1,50 to fill up the hive, and the amount of 1,00 brood they are rearing. In June, July, and August, when bees 1,50 are building combs rapidly, they seem to require a considerable amount of water. 1,00 They may be seen in large quantities about watering troughs, pumps, springs or streams of water, collectingit. When 1,50 a supply is not convenient to the apiary, it will pay to make a shallow trough, such as described for the feeding of bees; put in a lot of gravel, sand, &c., and renew the water daily, leaving the gravel, stones and dirt partly exposed. This enables the bees 2,00 to get the water without fear of being

Wash for Buildings.

If properly applied, whitwash is one of the most valuable articles in the world, as it not only prevents the decay of wood, but promotes the healthfulness of all buildings. Fences and out-buildings, if not painted, should be supplied as often as once or twice a year with a good coat of all of which I sell for each as cheap as can be bought in 1,00 whitewash. We find in the Chemical Gazette, the following receipt for a good whitewash or a wash of different colors:

AYER'S CATHARTIC

PILLS. Are you sick, feeble, and com plaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy.
Take Ayer's Pills, and cleanse
out the disordered humors — purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles some-

where in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deepseated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disor-

ders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public per-From a Forwarding Merchant of St. Louis, Feb. 4, 1855. DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long griev-ously afflicted with blotches and pimples on her skin and

in her hair. After our child was cured, she also tried your Pills, and they have cured her.
ASA MORGRIDGE. As a Family Physic. From Dr. E. W. Cartwright, New Orleans. Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily

Headache, Sick Headache, Foul Stomach. From Dr. Edward Boyd, Baltimore. DEAR BRO. AYER: I cannot answer you what complaints I have cured with your Pills better than to say all that we ever treat with a purgative medicine. 1 great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

treatment of disease.

DR. J. C. AYER. Sir : I have been repeatedly cured of the worst headache any body can have, by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. Yours with great respect, ED. W. PREBLE, Clerk of Steamer Clarion. Billious Disorders - Liver Complaints. From Dr. Theodore Bell, of New York City. Not only are your Pills admirably adapted to their purose as an aperient, but I find their beneficial effects upon

the Liver very marked indeed. They have in my prac-tice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is wor-thy the confidence of the profession and the people. DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb., 1855. SIR: I have used your Pills in my general and hospital practice ever since you made them, and do not hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, conse quently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of

bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D., Physician of the Marine Hospital. Dysentery, Diarrhee, Relax, Worms. From Dr. J. G. Green, of Chicago. Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhoa. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood. From Rev. J. V. Himes, Pastor of Advent Church, Boston. DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to Yours, my friends.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855. DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D. Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada. Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe costiveness to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients. From the Rev. Dr. Hawkes, of the Methodist Epis. Church. PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856. HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheu-matism. Notwithstanding I had the best of physicians,

the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well. SENATE CHAMBER, Baton Ronge, La., 5 Dec., 1855. DR. AYER: I have been entirely cured, by your Pills, of Rheumatic Gout—a painful disease that had afflicted me for years.
