SATURDAY, JANUARY 18, 1862.

The Stone Fleet

This term has often of late been used in the newspapers and but little interest has been induced with reference to it. Indeed it seemed to be a matter to which but little importance attached. Suddenly important. The idea which obtained has been that the vessels of this fleet, loaded with stone, were ceedings were too late for this issue. only intended by the American Government as an

INCIDENTS OF THE FUNERAL OF THE LATE PRINCE Consort.—After the Queens pages came his late Royal Highnes's vagers, in their characteristic uniform. The grief of one of these poor fellows was one of tht most touching episodes in the whole ceremonial . A great stalwart man, he sobbed as it his heart were breaking; and, when the solemen music of the choir burst forth, seemed to be wholly overis in attendance on her Majesty at Osborne, and it was noticed that Sir James Clark looked particu-

larly depress and careworn. The coffin of the Prrnce Consort is to remain on its bier. at the gates of the royal tomb house, untill the completion of the mausoleum which her Majesty intends to build exclusively for her own family at Frogmore. A variety of reasons have been given for this step; and among them few have been so industriously repeated as the one which ascribes to our benignant and pure minded Queen an juvincible reluctance to permit the ashes of those she loves to rest near the hugh dingy coffin, wherein lies in a gloomy unlamented state, all that remains of him who was once George the Fourth, King of Eng-

The Prince of Wales says the Morning Post returned to the vault before leaving the chapel, and himself caused to be placed upon the coffin three chaplets of flowers, the last tribute of affection to her royal consort from his widowed mother, who had forwarded them from Osborne that morning.

TYPHUS FEAVER AT WINDSOR CASTLE .- Is it possibly to it there is some defect in the drains or vaults of Windsor Castle which generates feaver! Less has just sustained, whether there may not by possibility be something between the walls in pentup drains, old wells, or cesspools, ages perhaps in disuse which may, in these latter days, he poisoning the atmosphere? It is well known that disease

The Paris Tempis publishes the following extraordinary statement; "Much has been said for the last two or three days, of a drama, of which an aristocrasic religious boarding school in the Fauburg St. German was the theatre. Two young ladies were playing during the hours of recreation when one struck the other in the face and knocked out one of her eyes. Her family was immediately apprised of the accident The father came to the school, and after seeing his dangiter, he asked to see the young lady who struck her. She came, when he drew a pistol from under his cloak and fired into her face. The unfortunate girl is so dreadfully wounded that if she recovers she will be disfigured for life.
