The Subscriber begs leave to present to public notice a
new and valuable invention which he is now introducing
into this country, called the Patent Portable Elevating,
Folding and Revolving Clothes-Dryer. This machine is
one of the most useful and important labor and time saving
household articles ever offered to the public. Though
it has been only a short time in the market, its complete
success is a fact, testifying the resources of the manu-
facturers to supply the demand.
