The Carleton Sentinel.

SATURDAY, AUGUST 15, 1863. Fredericton. For those of our readers who are able to devote but a few days to pleasure during the year...

be found flowers of every variety, from the heavy, rich, showy dahlia, to the retiring, blushing, unobtrusive forget-me-not.

The Governor visits Tobique.

His Excellency passed through this town week before last, intending to visit various settlements in this County, and up the Tobique river...

To His Excellency, the Honorable Arthur Hamilton Gordon, Governor and Commander-in-Chief of the Province of New Brunswick.

May I please Your Excellency.—This first visit, from Her Majesty's Representative, is an event that the people on this river have reason to be pleased with.

It must be a pleasing satisfaction to you, on this occasion, to find that this mark of regard has been conferred on a Parish that embraces a valley of considerable extent, rich in the sources of agriculture, and mineral wealth.

With these valuable advantages and the necessary improvements going on, we indulge the hope that in a very few years, our individual efforts being directed more than usual to the pursuit of agriculture, we shall, under the peaceful rule of our beloved Queen, raise this Parish to a position still more worthy of Your Excellency's patronage.

Wishing you favorable weather and much enjoyment, on your way up river, we have the honor to be, Your Excellency, very obedient servants.

EZEKIEL HUTCHINSON, J. P., G. D. KETCHER, ALLEN KENT, Tobique River, August 3, 1863.

Gentlemen.—I thank you for your address, and your welcome to the valley of the Tobique.

It is with pride that I reflect that the name of the land to which I belong is associated with a district which, in its Agricultural and Mineral resources, has been so properly developed, and increased facilities of communication with the neighboring parishes.

We are requested to state that the Catholics of this place intend holding a Pic-Nic, on Sheriff Dibble's interval, on Monday, the 24th August, inst. The Woodstock Brass Band will be in attendance.

The neighborhood of Little Falls was visited on Saturday, the 1st inst., by a terrific storm of wind and rain. The water poured down from a water spout, carrying away acres of land, uprooting trees and overturning barns, &c., in its course.

Mr. Silas Blanchard died recently in Washington, from the effects of wounds received at the battle of Gettysburg, where he was in the Northern Army. His father, Mr. M. Blanchard, of the Blanchard House, and his sister went on to Washington last week, but did not reach there in time to see him alive.

Some time during the night of Tuesday last, a fire was discovered in the building owned by Mr. Henry Davis, and occupied as a Furniture Warehouse, &c. From the position in which the fire was found, it was evidently placed there by an incendiary. There was no insurance on the building, and we therefore have some particular reason for staying away.

Quit a goodly number of ladies and gentlemen left in the Garçole on Wednesday morning for Fredericton.

We have been asked by gentlemen interested in the matter, whether Dr. Jack, at the Educational Meeting here last week, made use of remarks at all disparaging to Sackville Academy, or to any other Educational Institution.

Since the above was in type, the communication of Q. was handed in. This writer seems to have entirely misjudged Dr. Jack's remarks; certainly he has not, as has been done in the former issue referred to, as when most impudently and maliciously words were put into the Dr.'s mouth which he had not used, and a meaning wrested from his language quite unwarrantable.

Then again, Q. misrepresents the Chairman, Mr. Fisher; he did not, as Q. has quoted him, intimate that he desired a building where "the whole people shall be compelled to send their children," &c., but he said he wanted a school where children, whose parents were unable to send them to other schools, might be compelled to attend.

We have no desire to appear the apologist for any of these gentlemen; but as a public reporter, it is our duty not only to maintain the correctness of our own reports, but as a public journalist, it is our duty to prevent as far as possible, any misunderstanding between a gentleman placed as is Dr. Jack, at the head of our chief Provincial Educational establishment, and the people, whose servant he is, and for whom he acts.

A RICHMOND BOY.—We clip the following from a late number of the Washington, D. C. Morning Chronicle. It will be observed that among the New Brunswickers abroad, of whom note has recently been made, Dr. Wohlpauger is earning a name and fame. We congratulate him and his friends.

ANOTHER PRESENTATION AT FINEY HOSPITAL.—Late on Saturday evening the inmates of ward six, of Finney Hospital, presented a fine case of instruments to Dr. D. P. Wohlpauger, a surgeon in charge of the ward.

Ward-master E. M. Hixson delivered the present with a short address, to which Dr. W. replied in a few words, and then made the presentation.

Dr. W. is much beloved for his kind and gentlemanly behaviour toward the sick and wounded under his charge.

Our experience fully justifies the following views expressed by the Editor of the Courier; we have always found the employees of the International Line, all that is here credited them.

Our contemporary of the Post announces the authority of one of the owners that the Admiral Dupont is not likely to resume her place on the Boston route, but that the company intend to place two good steamers on the line at the earliest opportunity.

As will be observed by the advertisement, that well known Hotel in St. John, the Waverly House, has changed proprietorship. Mr. Gutarie is now in charge by the St. John press, generally, as being well adapted to maintain the popularity of the Waverly.

We have received a copy of the Portland, Me., Weekly Courier, being of a new daily paper recently started by Messrs. Felch and Hall. This is the hon. J. B. Hall, Esq., formerly of the Pioneer. The paper is an excellent one, and these sensations have not in one what lessened friend Hall's ability with the pen.

See Barnum's new advertisement, and let any of our readers who may find themselves in Portland, Me., make sure of a good meal by calling upon him.

A VERY HARD HIT.—The Portland Courier says, "Bro. Hay of the St. Croix Herald is in town, and favored us with a call this forenoon. Bro. H. looks as handsome as ever."

We have the Knickerbocker for August, a racy number, and one just suitable for these hot days of August. It contains articles as follows: Ashes from the Pipe of an Old Smoker; From New York to Panama; August; the Death of De Soto; Cannon Jack of the Merchant Service; A Strange Death; Thirty Years Ago; The Lady of Bagatelle; Way down in Dixie; Antaous; International Law; Ucanany; Adrift on the World.

Communicated. RICHMOND, Aug. 6, '63.

DEAR SENTINEL.—It is now some time since I had the pleasure of occupying a corner in your valuable paper, nor should I have written at present had I not known you to be a warm friend of the cause of popular Education.

By the way, I think some one connected with the Post Office Department must have a spite against me, as I receive my letters only when they are quite out of date.

tion Office, Fredericton, which was stamped at Woodstock, Sept. 13th, 1862. It contained a very important document, the not receiving of which might have been a serious loss to my country. The fact last fall. One thing I do know; our mail carrier, Mr. H. Graham, is clear of all blame in this matter.

We had a very interesting Educational Meeting at Richmond Corner, on Tuesday evening last. The Rev. Mr. Kidd occupied the chair, and Mr. Bennett, Chief Superintendent of Schools, and Professor Jack, of the University of New Brunswick, addressed the meeting at some length.

Then again we have the Grammar School, kept at present in the basement story of a church, which is held in a sufficiently large and commodious room for the purpose. I may mention that the only candidates who received first class certificates at the Training and Model School at the late examination, were two students from our Grammar School.

It is to be hoped that the monitors will do something before long to justify the lavish praise already bestowed upon them by a hopeful people.

Beauregard has not been idle. Since we landed on this island, he has erected three new batteries just outside of Fort Johnson, on James Island, and mounted them with powerful guns, ranging on our siege train, and capable of doing us some damage if well managed.
