RETURN OF FIRE INSURANCE DUTY FOR 1861. Ordered by the House of Commons to be printed 8th July, 1862.)

THE usual Annual Return, just published by the Government, shews that the INCREASE OF DUTY paid THE undersigned, now doing business in his own by the QUEEN'S INSURANCE COMPANY, in 1861 over name, would respectfully inform his friends and the 1860, exceed that of 38 other Fire Offices, some of which public that he has on hand, and intends keeping con- have been in operation for upwards of half a century. -While the Return shows a falling off in the amount paid by six offices, it also shows that the INCREASE OF THE QUEEN exceeded that of all the London Offices but two, and all the Scotch Offices but one, (which during the year had absorbed the business of another office.) The In-CREASE OF THE QUEEN also exceeded all the Provincial Offices but two, and was nearly five times that of both the Irish Offices put together. Taking the gross amount of duty for the last two years, the Return shows that the QUEEN was the only Office which in that period had doubed the amount paid. These facts-based upon the highest CASH or COUNTRY PRODUCE, at the old stand of authority-prove that the eminent position thus occupied by the QUEEN INSURANCE COMPANY i doubtless owing to the high character of its Proprietary, and the distinguished liberality of the Directors in the Settlement of Losses. Gratified by the remarkable confidence hitherto reposed in the QUEEN, it will be the constant endeavor of the Management to sustain the high

W. L. ALTERTON. Woodstock, Nov 13

THE peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes in-AYER'S competent to sustain the vital forces in their vigorous action, and

leaves the system to decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease. Ayer's Sarsaparilla

is compounded from the most effectual anti-

dotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases. Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in Ayer's American ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER's SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it. We know the public have been deceived

by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them. AYER'S CHERRY PECTORAL,

The World's Great Remedy for Coughs, Colds, Incipient Con-sumption, and for the relief of Consumptive patients in advanced stages of the disease. This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.
