IMPORTANT NOTICE—TO FEMALES.

If any one suggestion is more desirable than another, it is the arrangement—a relief for the monthly offering so common to the sex, and the violence of which is only known to themselves.

Many a good constitution sinks under it, while friends wonder the cause. The nervous system becomes affected by the great strain, and no complaint calls louder for relief. To most perfectly relieve the sufferings, while nature's part of the work is fully carried out, is what HUNNEWELL'S Tonic Adyoxine has performed in most extreme cases; and most undoubted testimonials confirm the declaration.

Asking the confidence of all who can appreciate the relief from so much suffering, and to accept this valued preparation as truly meriting the name and fame of a true Adyoxine, is the wish of J. L. HUNNEWELL, Proprietor.

"A Subscriber," and perhaps well-wishing friend writes to enquire why we advertise patent medicines. "We will here now answer him that we do not. Our readers are aware that we have for years excluded everything of the sort, and the only seeming exception that we know of is the advertisement of Dr. J. C. Ayer & Co's remedies which now stands in our columns. I, our friend do not know why we will inform him that these are not 'patent' or even secret medicines. Their composition has been made as publicly known as any other scientific fact and has moreover had the approval of the highest medical authorities in the land. But what affords us perhaps still greater confidence in their worth is our personal knowledge of the man who makes them and the results that have followed from their use; results as familiar to our readers and to the whole community as they are to ourselves."

It has been our privilege to know Doct. Ayer ever since he graduated from the Penn. University in the same class with one of our personal friends, nor have we ever ceased to watch with interest his singular success in an untiring devotion to the noble profession he has chosen. If anybody will tell us what we can advertise of more interest to our patrons than remedies that will cure them when they are sick we shall cheerfully give it the benefit of our circulation.—Tunavore (III.) Baptist.
