

Hon. Mr. HARRISON: When the land tax bill was first brought under consideration I thought and said that the lands of the New Brunswick and Nova Scotia Land Company, and the St. Andrews Railway Company, should be exempt from the operations of the law.

Hon. Mr. STANLEY: The true policy of the country is to settle, not to lock up our lands. Certainly it is not justice to those who settle and improve our lands that in the midst of such settlements lands should be locked up, their proprietors doing nothing to improve the lands, which all the time is increasing in value from the expenditures and labor of the poor settlers in the neighborhood. Surely it is only right such should be made to contribute something to the making of the roads to and through the lands. I never supposed when we gave the lands to the St. Andrews Railway Company that they were going to remain locked up and unsettled, but I supposed they would be being settled and improved, and in fact improve the very property on which the tax is raised. I hold the policy of the law is a hardship, any more than that of any other law. I think the object of the bill is merely to provide that all monies paid after the 1st September shall be paid over by the Collectors to the County Treasurer, or Secretary Treasurer, to be held by them subject to the order of the Commissioners for following year. Chief object of the bill is to give greater security for the money.

Hon. Mr. STANLEY: My friend (Mr. Stevens) forgets that the lands which he has referred have been subject all along to the same taxes as resident lands for local purposes. With reference to the St. Andrews Railway Company, they have had no time as yet to turn their attention to the subject of settling their lands. The imposition of a land tax operated injuriously in the way of their operations, and it is a hindrance in the way of their floating their enterprises.

Hon. Capt. ROBINSON: The land first granted to us is not fit for settlement; that portion of our land which is fit for settlement, we have not yet received the grant of. Our great scheme of settlement is between Antigonish and Woodstock. I propose to the order of the first section, providing that all monies collected from lands owned by New Brunswick and Canada Railroad, and New Brunswick and Nova Scotia Land Company shall be expended on roads, or on connected with such lands respectively, to be pointed out by the Manager or Agent of such Companies.

Hon. Mr. Rice: I am not in favor of the bill, as being proper to the order of the bill.

Hon. Mr. STANLEY: I cannot see any objections to this amendment, as the exemptions are certainly only consistent with justice to the owners of these lands, for which government have received all the consideration required when the lands were conveyed.

Hon. Mr. Chandler: I certainly think it would be considered a breach of good faith, the imposing this tax in the first place, and then afterwards to the credit of the several companies interested, in England. I think, as a matter of policy, the exemption is advisable as going to show a desire to keep faith with those who have taken stock in the companies mentioned, previous to the imposition of the tax.

Hon. Mr. Mitchell: I have no objections to the amendment; it recommends itself to my judgment, but I cannot see that the tax was as has been stated a breach of faith. I assume that the N. B. and N. S. Land Co. does not pay it is because they have not been properly managed. Of one thing I am certain they are not the lumbering lands on the head waters on the Miramichi. If there is a breach of faith in one of these companies then there is in every case, where private individuals bought lands subject to Legislation of a country having free government. I cannot see any breach of faith. A tax charged on the property may induce the holders of large tracts of land to sell for settlement, and thus benefit the whole Province; it is not, I hold, good policy while we tax the small land holder who sows and reaps and improves the country to allow those large land proprietors to go exempt.

Hon. Mr. Todd: It is not exempt. Hon. Mr. Mitchell: The poor man goes in and improves his land, enhances its value and pays an increased tax as it improves, and improves the large monopolists tracts while the owner has no additional tax to pay.

Hon. The President thought the amendment, so far as it applied to the railway company very correct, but did not think the N. S. and N. B. Land Company had the same claims. His hon. spoke in terms highly eulogistic of the St. Andrews Railway, and the benefit it had been to the Province.

Hon. Mr. Odell referred to a petition he had presented in 1861, from the N. B. and N. S. Land Co., praying for exemption from the operations of the land tax. He contended it was just that the prayer of that petition should be granted, and hon. gentlemen, he said, should not forget that every settler introduced by the Company into the Province, contributed to the material wealth of the Province. He should certainly go for the amendment, but questioned the propriety of the provisions of the bill, and thought it as well to allow the collectors to retain the money.

Hon. Mr. Botsford feared that the security of the money would not be increased by passing through so many different hands as contemplated by the bill.

Hon. Mr. Hamilton thought it was advisable to have the money pass through as few hands as possible; he would go for the amendment, but did not agree with the principles of the bill.

The amendment was passed and the bill agreed to.

A bill to create a new parish in the County of Victoria, to be called "Gordon," was committed. An amendment, explanatory of the boundary and defining the lines more accurately, was introduced by the Hon. Mr. Rice, and the bill was agreed to, with certain amendments.

Hon. Mr. Mitchell informed the House that the complete report of the Auditor General was now before their honours.

Hon. Mr. Botsford wished to know what course Government intended to take with reference to the despatches relating to the Presidency of the Council, Hon. Mr. Mitchell: The Government, I presumed, had left the matter entirely in the hands of the House; but I shall be prepared to-morrow to give a direct answer to the question.

"A Subscriber," and perhaps well wishing friend writes us to enquire "why we advertise patent medicines." We will here and now answer him that we do not. Our readers are aware that we have for years excluded everything of the sort, and the only seeming exception that we know of is the advertisement of Doct. J. C. Ayer & Co's remedies which now stands in our columns. I, our friend does not know we will inform him that these are not "patent" or even secret medicines. Their composition has been made as publicly known as any scientific fact and has moreover verily had the approval of the highest medical authorities in the land. But what affords us perhaps still greater confidence in their worth is our personal knowledge of the man who makes them and the results that have followed from their use; results as familiar to our readers and to the whole community as they are to ourselves.

It is but our privilege to know Doct. Ayer ever since he graduated from the Penn. University in the same class with one of our personal friends, nor have we ever ceased to watch with interest his singular success in an untiring devotion to the noble profession he has chosen. If anybody will tell us what we can advertise of more interest to our patrons than remedies that will cure them when they are sick we shall cheerfully give it the benefit of our circulation.—Tamarac (Ill.)
