

chargeable, and I intend at the same rates were then paying, with these claims Judge DeBarrs and two others, and all future salaries to go to the credit of the Province, and under the control of the Legislature. And now this increase amounts to some \$212 annually to be added to a salary which I consider too large before. Where or what source will this amount be drawn from, the surplus Civil List or from the taxes of the people of this Province? Why, sir, I know of no country of the same population which costs so much to carry on its Government as this, and the expense appears to be increasing by the creation of new offices, and will, if continued, leave very little for internal improvements. I have no desire to embarrass the Government, no matter who may be in power, and if true, as stated by the hon. member for St. John (Mr. Gray) that his Excellency could draw without consulting his Council, the Government cannot be responsible, but sir, if hon. members disapproved of the act, they should so express themselves. I have heard it intimated that if the resolution should pass a dissolution would follow; but sir, I made up my mind to do my duty and take all consequences. The question has been raised in our day, and I intend to express my views, and if this should be my last vote on the floor of the Legislature, it shall be recorded so that my constituents cannot say, you allowed an increase to be made to the salary, already too large, (which any school boy can see has been made), and not to raise your voice against it. So you see, sir, I cannot vote for the amendment, which reaffirms what has been cancelled as regards the amount; it only gives one side and leaves the question; if carried, the increase to be proper and right, if not so stated, is implied. As regards the resolutions, I think the word paid should be drawn, if as stated be correct, that his Excellency is authorized to draw without the consent of his Council. There are other points I would wish to touch upon, if time would permit, but forbear for the present. I think the time well spent, and the country should know the opinions of hon. members. I am willing my constituents should know mine. I do not feel disposed to trespass on the patience of hon. members of the committee any longer.

SATURDAY, APRIL 9, 1864.

Mr. A. J. Smith M. P. P.

It is the duty of the press, well acknowledging the deserts of the worthy, who in the front of the political agitations of the day watch for and promote those means which advance the country in all the channels of well and legitimate progress, it becomes no less a duty to mark those who by their actions win a bad notoriety, as the enemies and opposers of such progress. Such a notoriety has Mr. Smith earned. It has been Mr. Smith's fortune to occupy, during the greater part of his political life, a position of deceit, surrounded by his associates unbecomingly to his principles. Mr. Smith from his antecedents should be a liberal in the best and purest sense of the term; but he has been, and is, a Tory in the extreme and worse sense of that term. When a public man in his opposition confines himself to broad and general principles his conduct is perhaps, less amenable to close criticism, but when he narrows down his efforts and becomes the mere captious opponent of local improvements, and sectional efforts for the advancement of the country, then he loses the claims upon our respect due the statesman; suspicions of his sincerity are awakened; and he becomes the mere pigmy partisan hunting for place and power. We have seen much of Mr. Smith as a Legislator; have seen much in him to admire, but he has of late so completely shown himself to be without any settled policy, unless it be the policy of finding fault, of setting himself up as an oracle, and endeavoring to brow-beat every one else into an acquiescence with his views, that we are led to regard the achievement of his ambitious desires to become the leader of a government as a consummation most devoutly to be abhorred. His course with reference to railways has been tortuous, inconsistent and illiberal, and in his railway policy, if we can dignify his course by such a measure there is no man of any note in the House who follows or consorts with him but Mr. Anglin. Have we done Mr. Smith injustice? Let the records of the Legislature show! whether as regards individual efforts as in the case of the Woodstock and Houlton Railway Company bill, or in the more general projects brought forward as general railway bills.

We write thus of Mr. Smith not because he is in opposition to the Government; we believe it is time there was a strong opposition to the Government, and in the imbecility of the opposition we see much to fear for our future. It is because the hon. gentleman having assumed the position of leader has not bent his energies and talent, which are undoubtedly great, to such a course as the country had a right to expect of him. As a public man Mr. Smith is public property in Carleton County as well as Westminster, and the public have treated him with very great consideration and respect; but unless he changes his course in future the reverse will be the case.

Our report of Wednesday's proceedings in the Assembly cannot be published in this issue. We therefore state briefly that the railway bill was carried intact, with the single alteration that when any company have expended \$100,000 in construction, the Government may pay them \$25,000. There were several amendments put and lost. The highest opposition vote on any of these amendments being 8, so that the majority was very large indeed. Now all we have to fear is the reality of the enemies of the measure—that it won't come to anything.

A Resolution by W. J. Gilbert, affirming the principle that the Law Officers should not receive fees beyond their salary for services rendered the Province, was passed. This is a most desirable measure, and one which renders Mr. Gilbert's Legislative services worthy of remembrance.

Our readers will learn by the decision recorded elsewhere, the opinion of hon. members of the House of Assembly on that much vexed and long argued question, the Governor's salary. We in a few words may editorially express our opinion. It was very ill advised of his Excellency raising the question; the salary is now too high by a thousand pounds; but we are supposed to pay \$3,000 there per annum, and this amount, according to the present value of money, we have not for a few years been paying, therefore, we believe, His Excellency had a legal claim for the difference, just as we believe we would have had a legal right to retain any amount which according to a changed value of money we had chanced to overpay the Governor's.

RIFLE COURSE OF LECTURES.—The concluding lecture of the above course was delivered by Rev. R. C. Nelson, on Wednesday evening last. Business engagements prevented our hearing it, but we understand that there was an unusually large house, and that all were highly pleased with the manner in which the subject was treated by the Rev. gentleman.

The Government Railway Bill passed the Assembly, on Wednesday, without amendment, by a large majority.

The election for Councilors for Ward No. 1, which took place on Tuesday last, resulted in the return of Messrs. David Brown and Hugh McLean.

The English news by the "Hibernian," which arrived at Portland the 4th inst., is meagre and of but little interest. The chief item is the death of Lord Ashburton.

TO THE EDITOR OF THE CARLETON SENTINEL.
Sir, On the 5th ult., about thirty persons, composed of the different denominations of Christians, at and about McKenzie's Corner, met at the Baptist parsonage to pay their minister a friendly and profitable visit. The good ladies of this community, on that occasion, supplied the tables with all that was necessary, of the good things of this life. After the company had eaten to their satisfaction, the meeting was called to order, when Mr. E. M. Truesdale was elected Chairman. This gentleman then requested the friends to bring forward their donations, which request was responded to with promptitude and cheerfulness; the amount placed upon the table (in goods and cash) exceeded \$300. While with singing, then separation; thus an evening was very pleasantly spent. May these our friends enjoy every good thing. Yours, &c., JOHN M. CURRY

GRAHAM'S PAIN EXTRACTOR.—How many Consumers owe their afflictions to the fatal mistake of "waiting for a cough to get well of itself?" Avoid this error by availing yourself of that sure remedy for Coughs, Colds, and all Pulmonary Complaints, *Graham's Pain Extractor*.
