SATURDAY, APRIL 30, 1864. .81 .0 The Exhibition.

ince; and we hope, and feel assured, from our with ordinary judgement. knowledge of the gentlemen who take the lead in this matter, that all the arrangements will be made and conducted not only with enlarged, but with judicious, regard to the gratification as well as profit of those who attend. We respectfully ask then that our Farmers keep an eye to this show. That our mechanics and artizans make up, each of them, their minds to prepare something characteristic of ing to enrich the archives of Provincial taste and Raymond, Esq., a few miles below Town. refined skill wnich shall there be presented. Abil- loss was some \$800. the several classes of our citizens referred to, and morning. A kitchen attached to the residence will for the Exhibition of 1864.

The Election.

We have waited patiently for some definite intimation as to who will be Candidates at the Election which is to come, sometime this spring or summer. The writ not yet having been issued, it is impossible to guess as to when the Election will take place. We do not like to mention mere rumors, and still the people like to hear even intangible rumors, and very many persons will look to the Sentinel this week for information on this important subject. It is said then, indeed we said it last week, that Mr. George Stickney, of Brighton, truth, that petitions to, hon. Charles Connell, are being signed in various parts of the County asking that gentleman to be a candidate; and it is also received in due course, but the matter was rather said that Norris Best, Esq., the resident proprietor of the Charcoal Iron Works, intends at the solicita- casionally on current topics. tion of his friends to offer. We believe the rumors dence in, and representation of the County, and the

the election. plea of ignorance. They have had an opportunity rule to ourselves and our correspondents. of informing themselves as to what Legislation has been and what it should be; they are a reading people, an intelligent people, and therefore are not blind, unless wilfully. They know that now, whethe depressed condition of the general trade and interests of Carleton County, whether from the strong necessity for something being done to give us wealth, activity, population, or whether from us railroad communication with the world, should not be allowed to lag, or stop, or recede, but should by the most vigorous and intelligent effort, of the forward-from all these arise, in all these are found, well how to present :reasons why the selection of our Representatives tative in Mr. Lindsay; he is determined, no doubt,

The President-You do not ask for which the movements are conducted; upon the the order of the day. M. le Verrier-T beg your England. Why the order of the day? The question is whether the recommendation of the report s good. If so, we ought to adopt it; not indeed because it comes from England, for we know that everything that emanates from that country is. generally speaking, bad, perfidious, and pestilential -but because of its being intrinsically good. In the present case there is perhaps something good in what he said, not by England, but by certain English philanthropists. Although the neighboring The captain of the U. S. steamer Kearsage, in a letter country is a den of assassins, although assassins are to the Marquis of Clanricarde, defends hunself from the there maintained and comforted, and fed as ferrets remarks of the Marquis in Parliament. He denies that are fed in a tub to be prepared for their hunting. I he enlisted men, and on the contrary, the Kearsage has vote for the conclusion of the report. Let it be seen that if a recommendation though coming from London is by chance a good one, we do not therefore repudiate it. I assume that what we are now saying will be reported in England, and that there next year will be over two and a half millions. He pro- they will perhaps hereafter be somewhat less friendposes to reduce the duty on corn from one shilling per ly to the liberty of assassination. After a reproach quarter to three pence per hundred weight, the income to England for allowing hoxing matches uttered by Baron Chapuys-Montlaville, which was echoed by Count Boulay de la Meurthe, who said that in Engtions were generally favorably received, but there was land there was more humanity towards animals than towards men, the order of the day was report-

> The Athens journals mentions a fact of extraordinary atrocity. Menidi, a small town of Attica, got tired of its mayor, but despaired of being able to procure his removal, as he had for his supporters a family whose name was an object of terror to that country. The principle inhabitants assembled to deliberate what course they should pursue, and an unanimous decision was come to that before anything could be done with the mayor the family in question must be got rid of. A vote of death was more troops and gunboats, reported on the way, can be The bombardment of Sunderburg was recommended on therefore passed against them, and the sentence was carried into execution that same day, the 26th February, when the father and four sons out of the five were massacred in the street. The fifth son made his escape. The murderers also killed a o formally accept the Crown, and will sail on the 10th or young child, a son of one of the victims, alleging hat if he were allowed to grow up he would be as had as his relations. In order to legalise these crimes the municipal council assembled, and with an almost incredible impudence approved by procesverbal of what had been done. When the examinhim that document, and he was compelled to withdraw without doing anything further .- Galignani.
