## Dest Designation

Catechism of Geography, adapted for Pro-vincial Schools. By Edward Manning, English and Mathematical Master in the St. John Grammar School. The Publishers beg to call the attention of Teachers and Parents to the above Book. Among the many Geographies now in use, there are none which give to these Lower Colonies a sufficient prominence to make pupils so familiar with their own country as they should be. This volume has been especially prepared to meet this requirement, and as all other countries are described with suffieient minuteness to make the learner fully understand them, it is confidently recommended as the best Geography for beginners now in the market. Price 20 cents. Usual discount to the trade.
