How to Distinguish Good From Bad Calico.—The cost of a yard of calico is a matter of considerable importance to the consumer who ctudies economy; but unfortunately there are those who, in wishing to practice frugality, de- Seeb, to ceive themselves into the idea that because an | Woodstock April 21 article is low in price it must necessarily be cheap. The result of this is a demand upon the manufacturer for the low-priced goods, and he, to keep pace with the wants of his customers, introduces into his wares, when practicable, certain preparations calculated to hide the flimsivia Portland, 1 case SEEDS, comprising hess of the products he is thus called upon to

This system of "dressing and finishing," as it is called, is practiced at the present time at a greater extent than ever it was before, owing to large supply of sed" with flour, china-clay, etc., and are gener- count to dealers. GEO. C. HUNT, Druggist, &c. ally so artfully "filled" with one or other preparations as to be very deceptive to the inex-

When, however, such a dressed fabric comes to be washed, the "extra fine finish," as it is General Forwarding Agent and Commission Merchant, not unfrequently called, disappears, leaving a soft, flabby, and loosely woven texture in the hand, while the water in which it has been soaked is almost thick enough for bill-sticking purposes. other unevenly, and in places going off, as i were, in tangents. Then, if we draw out a single thread and pull it asunder, it will be found to break with a snapping sound. If on the contrary, the calico is a good one, scarcely any such dressing will come out of it on rubbing it; the threads will appear closely woven together; a single thread drawn out will rather burst than snap when pulled asunder, and the separated ends of such thread will present a fluffy appearence, while the whole piece will be that line.
