THERE COMES A TIME.

There comes a time when we grow old, And like a sunset down the sea, Slope gradual, and the night wind cold Comes whispering sad and chillingly; And locks are grey As winter's day, And eyes of saddest blue behold The leaves all weary drift away, And lips of faded coral say,

There comes a time when we grow old. There comes a time when joyous hearts, Which leaped as leaps the laughing main, Are dead to all save memory, As prisoner in his dungeon chain;

And dawn of day Hath passed away. The moon hath into darkness rolled, And by the embers wan and grey, I hear a voice in whisper say, There comes a time when we grow old.

There comes a time when manhood's prime Is shrouded in the midst of years; And beauty, fading like a dream, Hath passed away in silent tears; And then how dark! But oh, the spark That kindled youth to hues of gold, Still burns with clear and steady ray And fond affections, lingering, say, There comes a time when we grow old.

Then comes a time when laughing spring And golden summer ceased to be, And we put on the autumn robe, To tread the last declivity; But now the slope, With rosy Hope. Beyond the sunset we behold, Another dawn with fairer light; While watchers whisper through the night There is a time when we grow old.
