## SATURDAY, AUGUST 5, 1865. New Brunswick vs. New England States.

The Morning News has recently produced Stephen Company, came up here in the Highseveral very important articles, which have in lander. They were all marched over on to the cluded tabular comparative statements of the Institute Hill, passing en route under flags strung produce of the several New England States and across the streets at different points, and were New Brunswick. From such statements we there put through a variety of evolutions by Lt. learn that of horses, milch cows, working oxen, Col. Baird, after which the Col. made a speech and other neat cattle, sheep and swine, Maine, complimenting the men upon their conduct while with 2,677,216 cultivated acres, produced 1,134,- in Camp and the proficiency they had made and acres, produced 472,509; Rhode Island, with mand, wreathed with moral laurels, to the Re- 66 1-8 years. Aroostock has a healthy climate! 329,884 acres, produced 122,339; a total of 12,- public which had so cheerfully and promptly giv-118,902 acres of cultivated land producing 4,- en them, its sons, to do the behest of the Pro-437,242 of the animals mentioned, being an aver- vince. Had they not returned victors? they age of 36 to every one hundred cultivated acres. had! True, their victories had been bloodless, New Brunswick, with 885,108 cultivated acres but they had conquered their ignorance of miliof land, produced 484,916, or 55 animals per 100 tary maneuvres and become apt at the evoluacres, or 31 per cent. greater than Maine; 83 tions of the field and the handling of the musket. durable, efficient and cheap. per cent. greater than New Hampshire; 19 per They had conquered the prejudice, well groundcent. greater than Vermont; 53 per cent. great- ed we admit, against the Camp, and come forth er than Massachusetts; 120 per cent. greater untainted, so far as is known, by those moral than Connecticut; 49 per cent. greater than corruptions which it was feared would result Rhode Island, and 53 per cent. greater than from Camp life. Therefore they had proved victors. And we will not stop to enquire what that of all the New England States.

Turning to the produce of the fields, we find effect their presence in Fredericton may have the following facts regarding the yield of wheat, had on President Johnson or the bellicose Yan-Rye, Barley, oats, Buckwheat, beans and peas, kees, or how far the safety of the world and its tend holding a Bazaar and Pic-Nic sometime potatoes, from the same number of cultivated liberties are guaranteed in the future.
