The Rev. C. W. Vining who has safely returned from a journey in the East, thoughtfully brings Gents Furnishing Goods. us, among other curiosities, some of the newspapers published in Egypt and Turkey. They are in four languages, French, Turkish. Armenian, and Greek. We cannot read them, but he can, and through his patience we have been gratified lo learn their contents, and the materials of which | Plain and French PRINT; newspapers are made up in the land of the Osmanlis. Our American enterprise is well represented: stoves, wooden and tin-ware, ploughs, axes and tools are advertised from this country. In each of the four languages are heralded the virtues of the remedies made by our celebrated countrymen, Dr. J. C. Ayer & Co., of Lowell. They seem not to depend on their home reputation purchasing from the Subscriber, as liberal discounts will be given for cash payments. of the Musselmen rulers themselves, to the cures which those medicines have made in their midst The Rev. gentleman informs us that the whole of the remedial aid employed in those countries. comes from Europe and America, as they possess no medical colleges or schools in which they have any confidence themselves. There arose the religious ideas which prevade the human family, but almost all that is useful in art or invention must be carried back to these, the earlier settlements of mankind.-[Lynn News.
