He came empowered to treat with the St. John Company, and close the bar gain, for the construction of Western Extension. But they required the necessary legislation to enable the City of St. John to carry out its promise of taking \$100,000 of stock in the Compa ny, but unfortunately two, at least, of the St John members retused to sanction such a measure, and consequently the bill was not brought in. The members alluded to think they have got the Government bound to do Western Extension and, therefore, don't want St. John to do anything. How this new complication will affect the issue cannot be told just now.

It is said His Excellency has trouble over militia matters; certain it is the Adjutant General has resigned his office. The general opinion is that it was very unwise to open the Camp so early in the season as contemplated, and it is feared a draft just now will severely test the loy-
