COTTON WARPS.

WE would request the attention of those who use COTTON WARPS, to the kind of Warps which we are now manufacturing at the

NEW BRUNSWICK COTTON MILLS.

We spin Nos. 7's, 8's and 9's, and they are warped and sized by machinery, thus saving much labour, and being better done than by hand.

They have been extensively used through the Provinces during the last year, and have been proved to be both better and cheaper than any imported either from England or the United States.

We intend to manufacture them largely for the next few months, and would wish parties in want of such Goods to give them a trial.

They can be obtained from the principal Dry Goods Houses in the city and throughout the Province
