

SPECIAL NOTICE.

BE ON THE ALERT! DANGER IS AT HAND!
This has been a sickly season. The medical faculty prophesy evil in the future. They think pestilence is on the wing. Suppose this to be true, what is the best defense against it? **REDOUBLED NERVINO'S VIGOR.** This is the only protection against PANIC, as well as against the PRINCIPLE OF INFECTIOUSNESS. Why do not those who predict the epidemic propose an adequate preventive? There is one, a tonic, nerve and alterative, competent to shield the system against the subtle elements of disease, whether they float with the wind from distant lands, or rise like a vapor from our own soil, or are incorporated with the universal fluid. **THIS ONE PREVENTIVE**, of which there is no duplicate among the compounds either of the Old World or the New, is

Hostetter's Stomach Bitters.

Remember that it is a specific for all the complaints which lay the system open to visitations of deadly epidemics. If you are dyspeptic, it renews the vigor of your digestive powers, gives you appetite, and restores your cheerfulness. If you are nervous, it invigorates every fibre of your nervous system, from the base of the brain, where it begins, to the extremities, where it terminates. If you are bilious, it disciplines your unruly liver and brings the action of that organ into harmony with the laws of health. It is, in short, an invigorant and alterative so powerful that Nature, with Hostetter's Bitters for her ally, may bid defiance alike to native miasms and foreign infections. If this enemy we hear of, this disease which is devastating Europe, is really bound hitherward, it behooves the prudent to put on their armor, to elude the invader with invulnerability as far as human means will permit, by preparing the system for resistance with this pure vegetable antidote.
