is concerned, it is proposed to gratify them. All the physicians admit that the greatest difficulty they encounter in their practice is in conveying to the seat of a disease the medicament that will counteract and neutralize it. But of what use would it be without their healing, strengthening, life-sustaining balm? It would merely excite. It could neither protect nor cure. And herein lies the essential differwhen given alone, and the same stimulant when ert Stephenson; Grand Falls, Wm. Costigan. administered in the medicinal form of

Good Monongabela spirit is doubtless the mildest and most innecuous of all the varieties of liquor, but it only becomes a healthful medicine when impregnated with the vegetable elements employed in the preparation of the Bitters.

To Dyspeptic Sufferers.

Under the general head of Dyspepsia may be classed all the varieties of indigestion. Its symptoms are so various, and differ so much in different individuals, that it is almost impossible to classify them. In fact, some of them are utterly indescribable. It may be safely asserted, however, that half of the diseases of mankind spring from a disordered state of the stomach; and that the other half, whatever their origin, react upon by the morning Train. that sensitive and important organ. Among the ordinary indications of dyspepsia are flatulence, one Hour before the departure of Train. a bloated and full feeling about the stomach and abdomen immediately after eating a gnawing sen-sation, or a sense of hollowness at the pit of the stomach between meals, a heavy dull feeling in the head, feeble or unsteady appetite, occasional Commissioners' Office, Station Building ? nausea, restlessness during the night, and a weary, unrefreshed feeling on rising in the morning, palpitation of the heart, depression of mind, sometimes amounting to monomania, loss of memory confusion of thought, sour stomach, with raising of food, and a choking sensation in the throat, dimness of the eyes, pain in the diaphragm, feebleness and disinclination for exertion, and sometimes emaciation and a corpsc-like pallor. These are a few of the direct signs of dyspepsia, but as it is generally complicated with specific affections the most approved kind of Plows, consistof the bowels, the liver, and the nerves, its victims have many additional torments which are technically attributed to other causes. The best abvice that can be given to any one who has the slightest predisposition to dyspepsia, is to fortify his or her digestive organs by the daily use of

Hostetter's Bitters.

The disease proceeds from a lack of vigor in of the the stomach, and this vitalizing preparation will tone and renovate that organ. If the gastric apparatus is in good working order, and can perfeetly dissolve and thoroughly assimilate the food submitted to its operation, there will be no And here you will find the dyspepsia. If it cannot do this, it requires reinforcement, and the best of all reinforcing agents should be forthwith resorted to. The stomach is the commissary of the system. It supplies the ciements of life to the whole body. In it is prepared the material of blood, musele, bone and fibre, and if it fails to purvey that material in sufficient quantity, and of a proper kind, the whole body suffers, and with it the mental faculties. Therefore protect the "Commissary Department." Don't let the enemy obtain possession of it. It is easier to prevent disease from getting into an organ than to expel it after it becomes a "chronic fixture." Consider the first indication of uneasiness in the stomach as a sign that dyspepsia is preparing to attack, and baffle it at once with this great repellant. But if it is too late to prevent, remember that it is not too late to cure. It is believed that there | HARDWARE STORE. is no case of chronic indigestion that can withstand the remedial operation of

Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful bands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incantious use. Those contain no mercury or mineral THURSDAY and SATURDAY MORNING, at

ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, and nsequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints; for Coughs, Colds, Hoarse-NESS, ASTHMA, CROUP, WHOOPING COUGH, BRONCHITIS, INCIPIENT Consumption, and for the relief of consumptive patients in ad-THURSDAY and SATURDAY MORNING, at 5 o'vanced stages of the disease. As time makes these facts wider clock, connecting at Woodstock with steamer High- and better known, this medicine has gradually become the best eliance of the afflicted, from the log cabin of the American peasant to the palaces of European kings. Throughout this entire country, in every state and city, and indeed almost every hamlet it contains, Chekry Pectoral is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent WOODSTOCK. Returning, will leave WOODSTOCK physicians. If there is any dependence on what men of every opposite days at 9 o'clock, or on arrival of steamer station certify it has done for them: if we can trust our own station certify it has done for them: senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business is to know; in short, if there is any reliance upon any thing, then is it irrefutably proven that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. Nothing but its intrinsic virtues, and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the rep utation it enjoys. While many inferior remedies have been thrust upon the community, have failed, and been discarded, this has gained friends by every trial, conferred benefits on the affiicted they can never forget, and produced cures too numerous and remarkable to be forgotten.
