

COMMON SENSE VIEW OF THE

MODE IN WHICH

### HOSTETTER'S

### STOMACH BITTERS

ACT UPON THE

HUMAN SYSTEM.

THIS is an age of enquiry. People want to knew why and wherefore of all statements submitted to them as facts, and as far as this

Great Protective and Invigorant

is concerned, it is proposed to gratify them. All the physicians admit that the greatest difficulty they encounter in their practice is in conveying to the seat of a disease the medicament that will counteract and neutralize it. Electricity has been tried for this purpose, but it is now generally admitted that the electric fluid is too subtle an agent to be made the vehicle of medication. It shocks the nerves, but can not distribute through the system anything except itself. Medicated electricity is, in short, an exploded humbug. But a liquid stimulant, as everybody knows, can be charged with the essential properties of any and every substance in the Materia Medica, and there is no herbial extract which will not hold in solution with all its preventative and curative virtues unimpaired. Now the pure liquid stimulant of which

#### Hostetter's Bitters

are in part composed, is charged with invaluable regetable remedies, and these by reason of its powerful diffusive principle, it conveys to every organ and introduces into the circulation. To Wholesale Wine & Liquor Vaults use a common expression, it goes to the spot, taking with it just what is wanted there. The essence of rye would undoubtedly diffuse itself through the organization as swiftly if administered pure and simple, as if mixed with the juices of tonic and alterative roots, barks and herbs. But of what use would it be without their healing, strengthening, life-sustaining balm? would merely excite. It could neither protect nor cure. And herein lies the essential difference between the effect of the purest stimulant when given alone, and the same stimulant when generally. My stock consists of the following:administered in the medicinal form of

#### Hostetter's Stomach Bitters.

Good Monongabela spirit is doubtless the mildest and most innocuous of all the varieties of liquor, but it only becomes a healthful medicine when impregnated with the vegetable elements employed in the preparation of the Bitters.

#### To Dyspeptic Sufferers.

Under the general head of Dyspepsia may be classed all the varieties of indigestion. Its symptoms are so various, and differ so much in differclassify them. In fact, some of them are utterly Liquor Store. indescribable. It 'may be safely asserted, however, that half of the diseases of mankind spring from a disordered state of the stomach; and that the other half, whatever their origin, react upon that sensitive and important organ. Among the ordinary indications of dyspepsia are flatulence, bloated and full feeling about the stomach and abdomen immediately after eating a gnawing sensation, or a sense of hollowness at the pit of the stomach between meals, a heavy dull feeling in running between Frederict n and Indian Town; Bosthe head, feeble or unsteady appetite, occasional nausea, restlessness during the night, and a weary, unrefreshed feeling on rising in the morning, palpitation of the heart, depression of mind, sometimes amounting to monomania, loss of memory, confusion of thought, sour stomach, with raising of food, and a choking sensation in the throat, dimness of the eyes, pain in the diaphragm, fee-bleness and disinclination for exertion, and sometimes emaciation and a corpse-like pallor. These are a few of the direct signs of dyspepsia, but as it is generally complicated with specific affections of the bowels, the liver, and the nerves, its victechnically attributed to other causes.

who has the slightest predisposition to dyspepsia, is to fortify his or her digestive organs by the

### Hostetter's Bitters.

paratus is in good working order, and can per- following:fectly dissolve and thoroughly assimilate the food submitted to its operation, there will be no dyspepsia. If it cannot do this, it requires reinforcement, and the best of all reinforcing agents should be forthwith resorted to. The stomach is the commissary of the system. It supplies the elements of life to the whole body. In it is prepared the material of blood, muscle, bone and fibre, and if it fails to purvey that material in sufficient quantity, and of a proper kind, the whole body suffers, and with it the mental faculties. Therefore protect the "Commissary Department." Don't let the enemy obtain possession of it. It is easier to prevent disease from getting into an organ than to expel it after it becomes a "chronic fixture." Consider the first indication of uneasiness in the stomach as a sign that dyspepsia is preparing to attack, and baffle it at once with this great repellant.

But if it is too late to prevent, remember that is not too late to cure. It is believed that there no case of chronic indigestion that can withstand the remedial operation of

#### Hostetter's Stomach Bitters.

This belief is grounded on twelve year's exper- Cord, Screw Boxes and Plane Irons. Lots of other ience of the efficacy of the preparation. The first Goods, Wholesale and Retail at instance of its failure to give relief is yet unchronicled. If it ever had failed, the voluminous correspondence addressed to the proprietors from all parts of the United States and South America ROOM PAPER. ROOM PAPER. To cents, and all other Plough work in proportion. would at least include one letter expressing dissatisfaction. But no, there is not one. The testimony extending over a period of more than a dozen years, is all of the same approving tenor. Certainly this is a sufficient warrant for claiming | TUST OPENED .- 1500 Rolls ROOM PAPER that the Bitters are a Specific for Indigestion in all its varieties. Prepared and sold by
