Breaking Ground.

It becomes our duty, as pleasure, to-day to record the transpiring of one of the most important events-affecting alike the interests of the whole County-that has ever taken place in Carleton. We refer to the formal breaking of ground of the 'Woodstock Railway.' Monday last, the day appointed for the inauguration of this work, was unfavorable so far as the weather was concerned for any very great out-door display, a heavy rain falling almost continuously during the day. But notwithstanding this drawback 12 o'clock noon witnessed a gathering of some 400 persons, embracing the fair brave and young, assembled in the midst of the forest, their beaming eyes, earnest conversation and determined looks all testifying to their anxiety for and interest in the great work about to be commenced.

Strawberries have made their appearance experienced severe weather on her passage. She against the laws of England, and if such an act "A spot in the wild wood" a short distance the statute books, which have, after giving an member of a Government pledged to oppose that no great distance from the ship. Our pilot imfound our harbour perfectly open as it always is were passed by the Colonial Legislature, Messrs. in New York. from Dibblee's mill, on the Bedell Brook, had opportunity to all who desired,-those who ought policy.
