exhibited by the Most Celebrated Makers. THE AMERICAN ORGANS are the ONLY REAL REED ORGANS now before the public. The only Organ having a REVERBERATING SOUND BOX or WIND CHEST-which has the same important par to perform as the Sounding Board has in a Piano Fort (to give body and resonance of tone) and without which the Organ becomes merely a Melodeon in an Organ Case. The American Organs not only have the Wind-Chest, or Sound Box but have the large Organ Bellows, giving power and great steadiness of tone. These with their extreme fine voicing of the Reeds and perfecting of the tone, make them the MOST PER-FECT ORGAN KNOWN. Then, in fineness of workmanship, fuish of action, and case, they excel all others These great improvements and superiority of tone and workmanship of the AMERICAN ORGANS place then in the front rank as the best, and command a higher price than any other reed instrument in the market. A careful examination of them, in comparis a with others, will quickly show their superiority. Special attention is called to the style of AMERI-CAN ORGAN, No. 17, containing the Super-Octave Coupler and Sub-Bass. FOA CHURCHES in want of

THE AMERICAN ORGANS all have the Reverber ating Sound-Box or Wind-Chest, and are finished in the highest style of art, in Rosewood, Jet, Walnut, and Oak finish, richly Varnished and Polished, or in Smooth Oil Finish, forming elegant pieces of Furniture for the Parlor or Boudoir; and the Oak and Walnut especially adapted for Churches, Lecture and Lodge THE AMERICAN ORGANS are all finished with our new PATENT improvements, containing the improved Knee Swell, Double Bellows, two Blow Pedals, and TREMOLO found in no other instrument. Throughout this entire country, in every state and city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any dependence on what men of every station certify it has done for them; if we can trust our own senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physic cians, whose business is to know; in short, if there is any reliance upon any thing, then is it irrefutably proven that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. Nothing but its intrinsic virtues, and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies have been thrust upon the community, have failed, and been discarded this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and remarkable to be forgotten.
