Oi word for it, you will be a better and a happier ated it is impossible to tell.

man." I knew a poor woman living on the edge of some woods, about a mile from my home Her husband had been dead two or three years and with three helpless little girls, she had hard conflict with poverty. I had often spoker 00 kindly to her, and thought my duty ended when the words were uttered; but when the 00 sermon of the old white-headed preacher was done the resolution was formed to go and de 75 something. Next day I visited the cellar an 00 measured out a bushel of potatoes, a bushel apples and a variety of other things, and have 00 ing put them into a wagon started for the cottage of the widow. A load of wood, for which 82 I paid three dollars, preceded me. An hour's long. with a width of 113 feet, and straight as an 00 drive brought both loads in front of the house, arrow and when my explanation was given there were 00 wet cheeks and warmer hearts in the parties. ago would hardly know the place. The widow wept for joy and the children joined my strength, had to give way also to tears. The act was one that gave me a new spiritual placed by a floating vessel are equal to one start, and when the preacher came back I thought ton burden. ever listened to. The change was in myself, not in him or his preaching.

Rancid Butter for Cooking.

Many persons sneer at the common notion 5 00 that butter too rancid to be eaten raw upon taxation bread may be used without objection in cook-6 67 ing; but this notion, like many other popular ideas, is more in accordance with the truth 10 00 the matter, than the imperfect knowledge which Bondy after a treasure said to have been buried 10 00 ridicules it.

All fats are compounds of acids with glycerine. Butter is a mixture of several fats, and | years. one of them, constituting, however, only a small portion of its mass, is butyrine; but this is a compound of butyrie acid with glycerine. Butyric, like other fats, is a neutral substance but when it is decomposed—in other words, when the butyric acid is separated from the gly cerine with which it is combined, we then have 10 60 the substances, the acid and the glycerine, ex- beginning of a financial crash or severe depres- R. Baird had not finished the wharf, in consehibiting each its peculiar properties. Butyric sion, says the Boston Post. 10 00 is a very powerful acid, caustic and sour and having that peculiar strong odor which is cha- national debt of France, which now amounts to ment he would have got the balance; that he 13 33 racteristic of rancid butter.
