For mine months I was most cruelly afflicted with a severe and obstinate cough, accompanied with acute pain in the side, which did not leave me, summer or winter.—
The symptoms increased alarmingly, and so reduced was I that I could walk but a few steps without resting to recover from the pain and fatigue which so slight an exertion occasioned. At this juncture I commenced taking the Balsam, from which I found immediate relief, and offer having used four bottles I was completely reand after having used four bottles I was completely restored to health. I have also used the Balsam in my family and administered it to my children with the hapbiest results. I am sure that such Canadians as use the Balsam can but speak in its favor. AYER'S CATHARTIC PILLS. ARE the most perfect purgative we are able to produce and, as we think, has ever yet been made by any body. Their leffects have abundantly shown to the other medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the bedra remove the obstructions of its event powerful. the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humours which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart tone and strength to the whole system. Not only do they cure the every day complaints of everybody, but formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the satest and best physic that can be employed for ohildren. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are entirely harmless. Cures have been made that would surpass belief, were they not substantiated by men of such exalted character, as to forbid the suspicion of untruth. Many eminent olergymen and physicians certify to the public the reliability of our remedice, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted fellow-men.
