

A COMMON SENSE VIEW

MODE IN WHICH

HOSTETTER'S

STOMACH BITTERS

ACT UPON THE

HUMAN SYSTEM.

THIS is an age of enquiry. People want to know why and wherefore of all statements submitted to them as facts, and as far as this

Great Protective and Invigorant

is concerned, it is proposed to gratify them. All the physicians admit that the greatest difficulty they encounter in their practice is in conveying to the seat of a disease the medicament that will counteract and neutralize it. Electricity has been tried for this purpose, but it is now generally admitted that the electric fluid is too subtle an agent to be made the vehicle of medication. It shocks the nerves, but can not distribute through the system anything except itself. Medicated electricity is, in short, an exploded humbug. But a liquid stimulant, as everybody knows, can be charged with the essential properties of any and every substance in the Materia Medica, and there is no herbial extract which will not hold in solution with all its preventative and curative virtues unimpaired. Now the pure liquid stimulant of which

Hostetter's Bitters

are in part composed, is charged with invaluable powerful diffusive principle, it conveys to every use a common expression, it goes to the spot, ta- public generally to their large and well selected stock For Bronchitis, Asthma, Catarrh, Consumpking with it just what is wanted there. The - essence of rye would undoubtedly diffuse itself through the organization as swiftly if administered pure and simple, as if mixed with the juices of tonic and alterative roots, barks and herbs. But of what use would it be without their healing, strengthening, life-sustaining balm? It would merely excite. It could neither protect nor cure. And herein lies the essential difference between the effect of the purest stimulant when given alone, and the same stimulant when administered in the medicinal form of

Hostetter's Stomach Bitters.

Good Monongabela spirit is doubtless the mildest and most innocuous of all the varieties of liquor, but it only becomes a healthful medicine when impregnated with the vegetable elements ness in Waterville, hereby informs his friends and the employed in the preparation of the Bitters.

To Duspentic Sufferers.

Under the general head of Dyspepsia may be toms are so various, and differ so much in differclassify them. In fact, some of them are utterly | very cheap for cash or country produce indescribable. It may be safely asserted, however, that half of the diseases of mankind spring from a disordered state of the stomach; and that the other half, whatever their origin, react upon that sensitive and important organ. Among the ordinary indications of dyspepsia are flatulence, a bloated and full feeling about the stomach and comach between meals, a heavy dull feeling in the head, feeble or unsteady appetite, occasional nausea, restlessness during the night, and a weary, pitation of the heart, depression of mind, someare a few of the direct signs of dyspepsia, but as 300 acres, more or less. it is generally complicated with specific affections tims have many additional torments which are north by land granted to Jeptha Foster, containing technically attributed to other causes.
