

A COMMON SENSE VIEW PATTINE THE OUT OOS

MODE IN WHICH

HOSTETTER'S

STOMACH BITTERS

ACT UPON THE

HUMAN SYSTEM.

THIS is an age of enquiry. People want to I know why and wherefore of all statements submitted to them as facts, and as far as this

Great Protective and Invigorant ty, Paint,

is concerned, it is proposed to gratify them. All the physicians admit that the greatest difficulty they encounter in their practice is in conveying to the seat of a disease the medicament that will counteract and neutralize it. Electricity has been tried for this purpose, but it is now generally admitted that the electric fluid is too subtle an agent to be made the vehicle of medication. It shocks the nerves, but can not distribute through the system anything except itse't. Medicated electricity is, in short, an exploded humbug. But a liquid stimulant, as everybody knows, can be charged with the essential properties of any and every substance in the Materia Medica, and there is no herbial extract which will not hold in solution with all its preventative and curative virtues unimpaired. Now the pure liquid stimulant of which

Mostetter's Bitters

are in part composed, is charged with invaluable vegetable remedies, and these by reason of its powerful diffusive principle, it conveys to every organ and introduces into the circulation. use a common expression, it goes to the spot, taking with it just what is wanted there. The essence of rye would undoubtedly diffuse itself through the organization as swiftly if administered pure and simple, as if mixed with the jui-ces of tonic and alterative roots, barks and herbs. But of what use would it be without their healing, strengthening, life-sustaining balm? It would merely excite. It could neither protect nor cure. And herein lies the essential difference between the effect of the purest stimulant when given alone, and the same stimulant when administered in the medicinal form of Christmas Giffs,

Hostetter's Stomach Bitters.

ologishoo'W dogsto'. Good Monongahela spirit is doubtless the mildest and most innocuous of all the varieties of liquor, but it only becomes a healthful medicine when impregnated with the vegetable elements employed in the preparation of the Bitters.

Confectionery, Spices, Pickles, Sauces, Cur-To Dyspeptic Sufferers.

Pictures, Violins and Concertinus.

toms are so various, and differ so much in differclassify them. In fact, some of them are utterly very cheap for cash or country produce. indescribable. It may be safely asserted, however, that half of the diseases of mankind spring from a disordered state of the stumach; and that the other haif, whatever their origin, react upon that sensitive and important organ. Among the ordinary indications of dyspepsia are flatulence, a bloated and full feeling about the stomach and abdomen immediately after eating a gnawing sensation, or a sense of hollowness at the pit of the 5 p. m., in front of the Sheriff's Office, Woodstockstomach between meals, a heavy dull feeling in the head, feeble or unsteady appetite, occasional nausea, restlessness during the night, and a weary, unrefreshed feeling on rising in the morning, palpitation of the heart, depression of mind, sometimes amounting to monomania, loss of memory, confusion of thought, sour stomach, with raising of food, and a choking sensation in the throat, dimness of the eyes, pain in the diaphragm, fee- Wakefield grant, thence northerly along said line to bleness and disinclination for exertion, and sometimes emaciation and a corpse-like pallor. These times emaciation and a corpse-like pallor. These the said William Taylor and others, and by the southerly along said line to the said William Taylor and others, and by the southerly along said line to the said William Taylor and others, and by the southerly along said line to the said William Taylor and others, and by the southerly along said line to the said William Taylor and others, and by the southerly along said line to the said William Taylor and others, and by the southerly along said line to the said William Taylor and others, and by the southerly along said line to the said William Taylor and others, and by the southerly along said line to the said William Taylor and others, and by the southerly along said line to the said william Taylor and others, and by the southerly along said line to the said william Taylor and others, and by the southerly along said line to the said william Taylor and others, and by the southerly along said line to the said william Taylor and others, and by the southerly along said line to the said will be said will are a lew of the direct signs of dyspepsia, but as it is generally complicated with specific affections of the bowels, the liver, and the nerves, its victory bounded south by land granted to John F. Taylor, see improvement. The Cough became easier—the extension of the box of the liver and the nerves of the liver and the liver and the nerves of the liver and the nerves of the liver and the nerves of the liver and t it is generally complicated with specific affections technically attributed to other causes. The best abvice that can be given to any one who has the slightest predisposition to dyspepsia, is to fortify his or her digestive organs by the
