ARE the most perfect purgative we are able to produce and, as we think, has ever yet been made by any body. Their Jeffects have abundantly shown to the community how much they excel the other medicines in use. They are safe

easant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, parify the blood, and expel disease. They purge out the foul humours which breed and grow dist While they produce powerful effects, they are at the doses, the satest and best physic that can be employed for ohildren. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are entirely harmless. Cures have been made that would surpass belief, were they not forbid the suspicion of untruth. EXTERNAL COMPLAINTS ! At this period there are but few of the human race macquainted with the merits of the Pain Killer; but while some extol it as a liniment, they know but little

of its power in easing pain when taken internally, while others use it internally with great success, but are equaly ignorant of its healing virtues when applied extern-illy. We therefore wish to say to all that it is equally successful whether used internally or externally, and it stands alone, unrivalled by all the great catalogue of Family Medicines, and its sale is universal and immense. The demand for it from India and other foreign countries is equal to the demand at home, and it has become

known in these far off places by its merits.
