AYER'S CATHARTIC PILLS.

ARE the most perfect purgative we are able to produce and, as we think, has ever yet been made by any body. Their Jeffects have abundantly shown to the community how much they excel the other medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, parify the blood, and expel disease. They purge out the foul humours which breed and grow distemper, stimulate sluggish or disordered organs into their patural action, and impart tone and strength to the whole system. Not only do they cure the every day complaints of everybody, but formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the satest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are entirely harmless. Cures have been made that would surpass belief, were they not substantiated by men of such exalted character, as to forbid the suspicion of untruth. Many eminent cler-gymen and physicians certify to the public the refiability of our remedies, while others have sent us the assurance of their conviction that our Preparations
