ms to live in humble style, perhaps in a log-house; and don't wish to make any show in the world. I ask if that is not better than to live in a splendid mansion, to drive in a handsome coach behind handsome horses; to live and move surrounded any by all the trappings of splendor, while the whole of of these outward signs of wealth are mortgaged aw and in a few years will be swept away, leaving the individual without even the reputation of wealth Like others who have spoken I want access, by rail road, to the outside world. We have a rail road now commencing at the Atlanbe tie Ocean and ending at Richmond; the intenthe tion of its promoters was that this road should will finally connect the Atlantic and Pacific waters, fit- or at all events that it should connect with the the | western roads-that intention I want to see aclow complished, but the advocates of this Woodstock ne- road would turn it aside and terminate it as who Woodstock. I am not opposed to the Woodstock ted. road. But I consider it insulting for us to be told,

the as we have been, that we must assist in building and it. Is it for the people of Woodstock to dictate ole to the intelligent people of the County what a- they shall do? Would it not be quite as just, quire as consistent, for the terms of dictation to has be used by the County to the Town? When the plan of building the road was first laid down and the scheme decided upon, was not that the time for the people concerned to have come to the County, asking for assistance, for sympathy, and that the County would become a party to

aid in the undertaking? Mr. Leary-They did. Mr. Irvine-I deny it. The first act relative to subsidizing railroads and the one upon which of all the subsequent acts have been predicated, was passed in 1864 (27th Vic. Cap. 8.) This act was in aid of construction of railways, and provides for a bonus of \$10,000 per mile to any it company constructing any of the branches in r- the act mentioned. Previous to the passage of be this law neither Woodstock nor the Municipal Council had taken any action with reference to a branch, and all their subsequent efforts have been based on that law. This led the County Council to adopt a resolution for the purpose of securing the bonus by law required. A bill was prepared, by request of this Council, by Mr. L. P. Fisher: the instructions of the Council were that the bill was to be permissive in its to character, and was to empower the Municipality ild to build the road. The bill itself never came er before the Council for approval, and the terms of the bill under which the Mun icipality is now o- ing, nor is it in agreement with the expressed ne wishes of the Council. Under the subsidy act, whenever any Company having expended upon any one of the roads mentioned \$100,000, that s then \$25,000 of the bonus would be paid, and he thus pro rata as the work progressed, the Government holding a mortgage on the road until it was completed. The subsidy bill provides that the amount of the Government bonus must be such company had shown its ability to construct pt any of the proposed branches before commen-
