Poetry. AN AUTUMN JOY.

It is a fair autumnal day, The ground is strewn with yellow leaves The maple stems gleam bare and grey, The grain is bound in golden sheaves Afar I hear the speckled quails Pipe shrilly 'mid the stubble dry, And muffled beats from busy flails

Within the barn near by. The latest roses now are dead, Their petals scattered far and wide, The sumach berries, richly red. Bedeck the lane on either side A dreamy calm is in the air-

A dreamy echo on the sea; Ah, never was a day more fair Than this, which blesses me I seek the stacks of ripened corn-The yellowed mosses on the roof, The diamond dew-drops of the morn,

That string with gems the spider's woof An azure haze is hanging low About the outline of the hills, And chanting sea fowl southward go From marshes, flats, and rills.

For many years, the autumn brought A solemn sadness to my soul-It sombred e'en my highest thought And on my gayest moments stole 'Twas sad, yet sweet-a strange alloy Of hope and sorrow intertwined-This autumn brings me only joy,

No shadow haunts my mind And why is this? The dead leaves fall-The blossoms whither as of old And winter comes, with snowy pall, To wrap the earth so chill and cold The sea-fowl, strung athwart the sky, Still chant their plaintive monotone-And why, when leaves and blossoms die, Should I feel joy alone.

Oh, ask me not-I must not tell I dare not all my heart disclose-A fairy wove a magic spell Around me, when decayed the rose Two gifts did fading summer bring-Two symbols of unfading bliss-Upon my finger glows a ring, Upon my lips—a kiss!

The British Admiralty is famous for its blunders and the extravagance of its shipyards, but the work they turn out cannot be surpassed, and once in a while they build ships of enormous strength and great speed—witness the Warrior. the Black Prince and the Minotaur. A later and still more noticeable instance is the efficiency of the despatch vessel Helicon. She was constructed for speed, and is certainly a hightlyer. A few days ago she left the Channel squadron 60 miles west of Cape Clear, and steamed with extraor dinary rapidity to Queenstown for the purpose of catching the night mail to Holyhead, running throughout at the rate of 21 knots an hour. At present there is much activity in mining o; erations in the Sherbrooke gold district. Several mines abandoned three or four years ago, lodes are frequently found on new ground. ended 30th Sept., the average number of men mining at Sherbrooke was 100, and the gold produced was 5834 oz. 7 dwt. 14 gr., which, if divi ded among the men at \$20 per ounce, would give each man \$1166 for six month's work, at \$7.47 per day. The average pay to miners is about \$1.25 per day. That the Sherbrooke district is extremely rich in the precious metal, there is no longer any doubt.—Halifax Express.
