EFFECTS OF HARD AND SOFT WATER ON HEALTH.—As regards the subject of soft and hard water, it is to be observed that for all purposes of ablution, for tea-making, for washing, for manufacturing purposes, for steam boilers, and for every conceivable use, except one, it is universally admitted that soft water is preferable to hard water. Soft water gives a silken softness to the skin, while hard water hardens and roughens the epidermis. With reference to the water which is drunk, it may be said that pure chalk water, hard as it is, contains lime and other salts, with carbonic acid in solution, which makes it, according to some authorities, not only a more agreeable beverage than the fresh water of a mountain stream, but more salubrious. Chalk water supplies ingredients which are required for the bones, say some; while others point to stone and other diseases incident to the dwellers in calcareous formations. Lists of towns have been cited to show that the mortality where hard or soft water is used is higher or lower. The mortality of Glasgow and Manchester is adduced by one party to prove that the mortality since the introduction of soft water is still much higher than the mortality of London, while, by another party, in evidence of the effects of soft water, their former sufferings and their recent exemptions from cholera are noted. If ancient popularity could settle the question, the sparkling waters of city pumps near church-yards, charged with carbonic acid and nitrates, would be preferred. The precise effects of hard waters uncontaminated with sewage and of fresh soft water on health have not yet been determined.

THE GASTRONOMIC TASTES OF SOVEREIGNS.—The following details as regards the gastronomic tastes of the reigning Sovereigns are published in a Paris evening paper:—Napoleon III.—Abstemious, cautious, never making the slightest remark to the servants. Moderate drinker, but great smoker, *Du reste*, the Emperor's kind and considerate manner to every member of his household, however humble his position, is worthy of imitation. Queen Victoria.—Abstemious, Puseyite, liking beef and pastry. Alexander II.—Hearty eater, connoisseur in wine, preferring Champagne and Burgundy, and fond of game. His Prussian Majesty.—Good drinker, (Roederer, &c.) beef, mutton, biscuits, and sweet things. A pleasant and unaffected host. His Majesty of Austria.—Silent at table, eats dark meat, especially mutton and game, and drinks the national wines of Hungary and Bordeaux. Victor Emmanuel.—Mighty hunter. Capital appetite, eats only white meat and small game.—Kills wild boar, but never eats their meat; drinks the Cote d'Or wines. Isabella of Spain.—Great appetite; prefers veal and white meats. Drinks Spanish wines and Bordeaux. The Sultan.—Partisan of strong meats, of rice, of pastry, of Eastern fruits, and of Burgundy.—His Dutch Majesty has the finest cellar in Europe; fond of fish, and especially salmon.—His neighbor of Belgium eats very little, and always small game, and drinks sparingly of Bordeaux. The ex-King of Hanover lives on the Bohemian pheasant, the woodcock of Galicia, and smoked ham of Styria, and drinks Moselle and the Rhine wines. King Louis of Portugal is the smallest eater of Europe.

R. R. R. PILLS,

PURGATION MADE PERFECT.

IN DR. RADWAY'S PILLS.

Extracts from "FALSE AND TRUE," A New Medical Publication free to all, by sending one stamp to pay postage to JOHN RADWAY, M. D. & Co., 439 St. Paul Street, Montreal.

THE DIGESTIVE ORGANS,

Showing the course of substances taken into the stomach along the canal.

1. The Mouth. 2. The Trachea. 3. Œsophagus. 4. Inside Stomach, 5. Gall Bladder. 6. Duodenum. 7. The Anus.

IMPERFECT DIGESTION.

The above diagram shows the course of substances taken into the stomach, through the alimentary canal, and here we may remark the importance of every one desiring to enjoy perfect health, to secure perfect digestion. This desideratum will be accomplished by taking one of Radway's Pills every morning about ten o'clock, as a Dinner Pill. By so doing, Dyspepsia, Headache, Foul Stomach, Biliousness will be avoided, and the food that is eaten contribute its nourishing properties for the support of the natural waste and decay of the body.

Imperfect Digestion frequently occurs when the bowels are regular, the constituents of solids that are not absorbed in circulation, from imperfect digestion are frequently directed to the kidneys for its escape; in such cases serious damage is done to the kidneys, as the urine secreted from imperfectly digested substances or food, *i. e.*, those constituents not secreted by the Liver or gall duct, establishes a foreign secretion in the form of Albumen, Sugar, Urea-Uric Acid, Lithic Acid, causing Bright's Disease, Diabetes, Dropsy, Renal Diseases of the Kidneys, Congestion, Degeneration, Ulceration, Gravel, Bloody Urine, &c. To prevent those serious and often fatal difficulties, take one of Radway's Pills every morning two hours before dinner.

Imperfect Digestion may be known by a voracious appetite, craving for food, great thirst, dryness in the mouth, dry skin, hot fœtid breath, restlessness, swellings in the abdomen, chest, legs, cold feet, frequent desire to urinate, varied colored urine, &c. Where these symptoms are present, the SARSAPARILLIAN should be taken three times per day, and the Pills one to six as the case may require. As soon as digestion becomes perfect these unfavorable symptoms will disappear.

A Great Medical Triumph.

NEW PRINCIPLES IN PURGATION!

SECURED IN

DR. RADWAY'S

Perfect Purgative Pills.

1.—A Vegetable Substitute for Calomel and Mercury.

2.—Counter-Irritation, made perfect in Radway's Pills, that withdraws inflamation from Congested Blood Vessels, Nerves, Liver, Stomach, Bowels, Kidneys, and other viscera, and purging all excrementitious, corrupt humors and diseased deposits from the system.

3.—In these Pills a nourishing and nutritious principle is secured, by which the blood, juices and fluids of the system, become invested with the vigor of life—they are the only purgative medicine—that strengthens during the process of purgation. These Pills act as a solvent and tonic to the gastric juice, enabling this solvent of the system to properly dissolve the substances taken into the stomach, and aid digestion, and the convertion of said substances into the proper constituents to make pure, rich and wholesome blood, the deficiency of which is the cause of Dyspepsia, Indigestion, Diabeates and many urinary difficulties, etc.

4.—They regulate the organs of the system; restoring functional harmony and securing the secretion of the proper constituents of each organ; by their action the Liver secretes its allotted proportion of bile—the Lungs, Carbon—the Skin, Sweat—the Kidneys, Urine, &c.

5.—The aged, and persons subject to Constipation, Costiveness, Paralysis and Weakness of the Bowels, Kidneys and Bladder, &c., that have to resort to injections; by taking two or three of Radway's Pills, will enjoy natural discharges, and by the occasional use of them have regular operations. In these cases their strengthening and nutritious principles are exhibited; every dose will add new strength to the bowels, Liver, Kidneys, &c., that may be worn or depleted by disease or age.

6.—In these Pills, a want that science has ever failed to supply is secured, and that is a thorough purgative that can be given in safety in cases of eruptive fevers, as Small Pox, Erysipelas, Yellow Fever, Scarlet and Typhoid Fevers—when the Mucous Membrane becomes ulcerated—now these Pills purge thoroughly, and heal ulcerated and excoriated parts.

7.—These Pills are made from extracts—from new ingredients—entirely vegetable, superior in every respect to the ordinary powders and substances of the common advertised Pills. Two of Radway's Pills will act quicker than half a dozen of the common drastic pills in general use.

ELEGANTLY COATED—NO TASTE OR SMELL.

SCOURING THE INSIDES.

Persons who take Pills for the purpose of getting "a good scouring out" are perhaps not aware that they are wearing away their intestines, irritating the Mucous Membrane, and laying the foundation for Piles, inward Ulcers, Sores, &c. MANDRAKE, that is claimed by some to be a substitute for Mercury, will produce this effect; it will scour the bowels like any other drastic, and will wear them out (see page 666. W. Baches, U. S. Pharmacopia). [illegible] as a constituent of a purgative [illegible] neral or continued use is hurtful. [illegible] troduction into a pill secures no [illegible] ple. Mandrake is inferior to the same [illegible] principle, in the official aloetic pill [illegible] dispensatory; so there is nothing [illegible] this agent, although its principal advocate presents it to the public, under Dr. Radway's original discovery, of a vegetable substitute for Mercury.

FOR BILIOUS DISEASES.

Not one in a thousand would suffer from Bilious complaints if Dr. Radway's treatment is observed, and all who may be seized with Bilious Colic, Bilious Fever, Typhoid Fever, Chills and Fever, Fever and Ague, Remittant and Intermittant Fever. In fact all animal and vegetable fevers are prevented and cured by RADWAY'S PILLS, assisted when required by the READY RELIEF.

TREATMENT.

As a prevention, when either of these maladies prevail, take one pill per day, this will regulate the liver, and supply any deficency of the healthy condition of the gastric juice, the natural solvent of the system, and secure healtly digestion; Ten to twenty drops of Ready Relief, in water as a drink, this will secure invigoration and strength where there is weakness, lassitude and languor, and neutralize the poisonous acids, generated from the gases of indigested food, irritant and morbid humors, of the stomach, &c., and if seized with any form of fevers, take the pills in large doses 4 to 6, every six hours, a few doses will ensure a cure. I have cured the worst forms of Yellow, Typhoid, Marsh, Ship, and Isthmus Fevers, in the West Indies, South America, and my treatment with the Ready Relief, and Pills, have met with the same success in the East Indies,—these fevers are all of one family, and will more readily yield in their milder forms as they exist in temperate climates; than in their more fatal types of the torrid zones.

ONE PILL,

Taken when symptoms of dissiness, fullness, or pain in the head, nausea at stomach, indigestion, costiveness, pain after eating, sleeplessness, bad dreams, &c., &c., appear, will soon cure this difficulty: Radway's Pills are unlike all other pills. Each pill contains 3 grains of the active curative principles of extracts of the rarest products of the vegetable kingdom,—of ingredients some of them never before used as medicine, and to be found only in these pills. In purchasing Pills, see that one of the labels is marked R. R. R.
