Saturday, October 10, 1868.

Aberdeen Show. We were very glad to be able to attend the Aberdeen Agricultural Society's Show, at Glassville, on Tuesday last. The exhibition was held on the grounds of Mr. Hugh Miller, and there was a very large attendance of interested spectators. We have not space at this late period of the week to refer more particularly to the arti cles of merit shown, further than to give the names of the several parties to whom prizes were awarded, which we do below. In general terms we may say that the articles brought forward in all of the several departments were of a character to satisfy any one of the enterprise, industry and taste which abounds in that progressive section of the County. Here were the fruits of fields and folds of a district which six or seven quisite. We have few fears as to the ultimate tary allusion to L. P. Fisher, Esq. success of the Union; we do not believe in reyears ago was crowned by a dense firest. And the grains (not as much shown as might have been), the potatoes, turnips, pumpkins, home spun cloth, knitted work, quilts, horse blankets, rugs, dairy produce, horses, colts, neat cattle and sheep were in the highest degree creditable .-There was an excellent variety of potatoes shown called the "Markey's," raised originally by Mr. Markey, Coldstream, from the balls. After the Confederation with our local institutions, and in award of prizes had been read by the Secretary, Mr. Ronalds, Mr. Samuel Watts was called upon and expressed his pleasure at what he had witnessed; referred to the great loss the County had recently met with by the death of Mr Hartley whose place, he believed, could not be entirely filled. And in reply to the question, to vote only for that man who in their judgment local legislature, he, Mr. Watts, said that as he will best meet the conditions, under existing cirhad endeavored to serve the people and promote cumstances, attaching to the position of a Legisthe best interests of this County during his past fourteen years connection with the press, so in Since the above was written the Editor of this this emergency he was prepared to serve them in the other capacity if the people elected him. received, issued a letter, expressing his willing-But he begged of them in making a selection to seek to find the best man for the position of a

The Vacancy.

There are a few words which we should ad dress to our readers at the earliest opportunity By an inscrutable decree of providence thi County has been deprived of a representative, and the vacancy thus created will have to be supplied by the electors; it may be that they will be called upon at a very early day. That Mr. Hartley's place can not be completely filled is a fact that but few will deny. But in the immediate recollection of those eminent talents which made their late representative so popular and so useful, it becomes the duty of the elecwhoever of their number they feel confident can best carry out his views, which were in accord
