How PARCEMENTS ARE MADE. - Parchment is made of the skins of sheep and lambs, though that kind which is used for the heads of drums is said to be made of goats skins. Vellum is a finer, smoother, whiter kind of parchment, made of skins of young calves. The mode of preparing is first to take off the hair or wool, then to steep the skin in lime, and afterwards stretch it very firmly on a wooden frame -When thus fixed, it is scraped with a blunt iron tool, wetted and rubbed with chalk and are repeated several times on each side of the

skin, till it is fit for use. seventh to the tenth century, it was beautiful, white and good ; but that in later times a very 4. That Extracts, Essences, Tinctures and Cordials inferier, dirty-looking parchment came into use, which has the appearance of being much older sumption at the following places, viz:than the new. The reason of this is supposed to be that the writer in these latter centuries used to prepare their own parchment, while at an earlier date it was a curious art only posses-sed by the manufacturers. Parchment was
